## No New Life Signs From Sunken Tower

NEW YORK (AP)—Salvage workers reported today that there was "no further sign of life" from the sunken wreckage of a radar tower which collapsed in the sea Sunday night.

Salvage rescue operations were resumed at 6:30 a. m. At 8:20 a. m. the Coast Guard here was notified there was nothing more to indicate anyone might be alive in the underwater debris.

## Seat Belts Have Backing of SADA And Rockefeller

ALBANY, N.Y. (AP)—A bill for mandatory installation of seat-belt attachments in new automobiles sold in New York after June 30, 1962, has the endorsement of Gov. Rockefeller and the State Automobile Dealers Association.

Rockefeller urged favorable action on the bill by Sen. Edward J. Speno, R-Nassau, in a talk Monday at the first annual meeting of the State Citizens Council on Traffic Safety.

He also told the council that the 1960 traffic-death toll of 2,077 in New York was the lowest in 10 years.

Nevertheless, the governor said, further efforts were indicated. The Speno bill would "make available to motorists at negligible cost the immense protection these belts afford," Rockefeller said.

## Central Halts All GCT Trains Due to Pickets

NEW YORK (AP)—The New York Central Railroad today halted all commuter and long-distance service in and out of Grand Central Terminal because of picketing by harbor craft crewmen employed by railroads.

The railroad earlier had suspended commuter and outbound long-distance service but had said it would try to bring in trains from distant points.

The Central said its last train on the road was the "Pacemaker" from Chicago and that it's run was terminating in Albany. It had been due to arrive in New York City at 1:30 p. m.

Tens of thousands of commuters were forced to seek other means of transportation.

The cancellations were ordered after train crewmen who put the trains together and handle switching refused to cross picket lines of striking harbor craft crewmen.

The suspension of service affected 40,000 commuters on the Harlem and Hudson divisions of the railroad who travel between the suburbs and Manhattan.

The New Haven Railroad, which also uses Grand Central Terminal, reported normal service on its commuter lines from here into New York and Connecticut suburbs.

The pickets indicated they might try to halt service on the Pennsylvania Railroad and extend their blockade to other East Coast cities.

The Pennsylvania and the Long Island Rail Road—which is owned by the Pennsylvania and uses Pennsylvania Station along with the P.R.R.—reported normal operations.

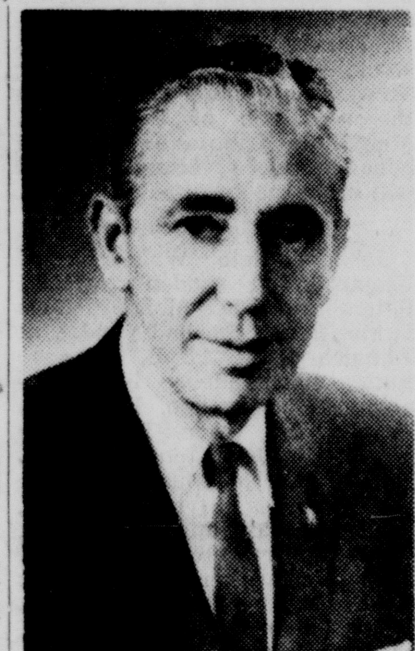

The New York Central said Monday night that all passenger service in and out of Grand Central might be halted today.

## Cancer Division Cites Paltz Man For 15-Year Work

Winner of the 1960 distinguished service award of the New York State Division of the American Cancer Society is Joseph P. Foley of 58 North Chestnut Street, New Paltz.

Foley who has been vice president of the state organization since 1951 was cited Monday night at the 13th annual Cancer Institute dinner in Syracuse. He has been active in the American Cancer Society for the past 15 years and is currently a member of the board of directors of the Dutchess County Unit. He is also chairman of the crusade committee of the state division.

**Active in Organizations**  
Active in many community services, Foley is a member of American Red Cross, Heart Association, Cerebral Palsy Association, Dutchess County Community Chest, St. Francis and Vassar Hospitals in Poughkeepsie.

Foley, administrative assistant to the general manager in the area of community relations at the International Business Machines plant, Poughkeepsie, is a member of the New Paltz Central School board of education. He served as chairman of the Cardinal's Campaign for St. Joseph's Church, New Paltz.

**Output Is Lowest**  
WASHINGTON (AP)—A dip in steel and automobile production has driven industrial output to the lowest point in more than a year.

The Federal Reserve Board said Monday a 2 per cent drop in December produced a production index of 103 per cent. The high for the year was 111 per cent last January.

The index is based on average industrial production for 1957.

# Assembly to Vote Rocky's Deficiency Budget Today

## \$9,250 Is Paid Over 1959 Total Meter Hike Puts Amount at \$58,842

Increased parking meter rates only fully effective for the last four months in 1960 gained the city \$9,250.76 more than the 1959 total, City Treasurer Orrie R. Riehl revealed today.

The 1960 total was \$58,842.76 and that in 1959 was \$49,592. It is estimated that the 1961 total should be \$80,000 or considerably more.

Rates were increased from five cents for an hour's parking to five cents for the half hour in the city's busier districts. An hour's parking is permitted for the second nickel. In other areas the rate remains five cents for the hour with two hours of parking permitted for the second nickel.

**Indication in August**  
August brought the first indication of the new monthly take to be expected from the meters after the increased rates became effective. The take then reported at \$6,006, was \$1,236 above that in July. By October the take reached \$6,600, and that was considered the first definite indication of what could be expected on an annual basis from the new rates.

In the three or four years before the 1960 rates became effective the monthly take ranged from \$3,600 to \$3,800 in January and February to above \$4,000 in the warmer months. June, July and August totals were generally above \$4,000. The June take last year was \$4,550.

The annual take ranged from \$49,000 to slightly above \$51,000. It was noted recently in the Common Council that a major objective of increased meter rates was to provide sums to be used ultimately in part, for off-street parking projects.

The hike in rates, however, brought protests from merchants in various sections of the city, minority members of the Common Council and others.

The Common Council last May with Minority Leader Samuel J. Perry (R) Fifth Ward absent, voted unanimously for the new rates. Joseph J. Carroll Jr. (R) 11th Ward, noting opposition to the new rates, proposed an amendment to the ordinance, which would restore the old rates. This lost by a 9-4 party vote in October.

## President Gives Final Report on TV Tonight, 8:30

WASHINGTON (AP)—Dwight D. Eisenhower makes a final report to the people tonight on his two terms as president.

The speech from his White House office at 8:30 p. m. EST will be carried by all major television and radio networks.

RICHARD M. KALISH

## Hospital Board Elects President For Another Term

Richard M. Kalish was re-elected president of the Board of Trustees of The Kingston Hospital at the annual meeting Monday afternoon at the hospital.

Also reelected were Richard J. Whalen, vice-president; Amos R. Newcombe, treasurer; and Norman L. McLeod, secretary.

**Six Re-Elected**  
Six trustees whose terms expired were re-elected at the annual meeting of the Kingston Hospital Association immediately preceding the board's meeting. They were: Conrad J. Gross, Ernest M. Heppner, Jay A. LeFevre, John D. Schoonmaker Jr., Abraham Streifer and Richard J. Whalen.

In his annual report to the Association, President Kalish noted that the second phase of the construction contract was completed during 1960.

"The hospital looks forward to the completion of the entire present construction contract in the very near future," President Kalish said.

## 52 Are Accused In Pen Pal Club Mailing of Nudes

CHICAGO (AP)—A federal grand jury has accused 51 men and one woman of sending or conspiring to send obscene material through the mails in connection with their membership in so-called "pen pal" clubs advertised in magazines illustrated with nearly nude musculature.

The 52 persons were named in 14 indictments culminating a six-month investigation by postal inspectors and the federal grand jury, U.S. Dist. Atty. Robert Ticken said.

In a joint statement Monday, Ticken and post office inspectors said the investigation was aimed at "the Adonis Male Club and the International Body Culture Association, who solicited members by means of free advertising in the male magazines (physique-muscle display type) 'Vim' and 'Gym.'"

The 51 men, ranging in age from 18 to 57, live in 24 states and Canada.

"The 'Pen Pal' clubs," the statement said, "were operated by Nirvana Walters, the wife of the magazines' editor and her husband, who was a member of the clubs."

## School Group Votes Officers, By-laws

Abraham Streifer of Hurley, a prominent Kingston attorney, was elected chairman of the Nonpartisan Nominating Committee for the selection of candidates for the Kingston Board of Education (Consolidated) on Monday evening in the George Washington School.

Other officers, all unanimously elected, were Chris Laros of Hurley, George E. Yerry Jr., and Bernie Singer, both of Kingston, vice-chairmen; Mrs. Gifford Beal of Lake Katrine, secretary; Mrs. James Cawston of the Sawkill Road, town of Ulster, treasurer, and Jack Crawford Jr., town of Ulster, chairman of public relations.

**Executive Meeting Set**  
Some 40 delegates and members-at-large of the committee adopted a set of by-laws and a qualification sheet for candidates. A meeting of the executive committee will be held later this week.

Streifer expressed his appreciation to the Committee for its "vote of confidence" and said he hoped the group would not be disappointed in his leadership.

He expressed gratitude to the Kingston Chapter, American Association of University Women, for "getting the ball rolling."

The local AAUW chapter initiated the study which resulted in formation of the Nonpartisan Nominating Committee. Mrs. Sylvia Chipman of Kingston served as study committee chairman.

**Serve as Individuals**  
Streifer pointed out that delegates to the Committee were appointed by area organizations but emphasized that delegates served as individuals. Their appointments by organizations was simply a means of obtaining a good cross-section of the community.

Streifer said the task of the Committee is one very much worth doing, that the proper education of our children is a major function of good citizenship, a responsibility which belongs to the board of education. The aim of the Committee, he said, is to discharge its responsibility wisely and well, to win the confidence of the community which then, should come to rely heavily on recommendations of the Nonpartisan Nominating Committee.

**Essential to Win**  
He said the Committee must choose nominees and work hard to see them elected. Nothing could be more fatal than to be defeated at the polls, he pointed out. He explained, however, that he does not anticipate such a loss.

Streifer emphasized that the next two months should be occupied with the quest for candidates with the finest possible qualifications for the two positions which become vacant on the local board of education next May. The committee will take an active part in seeking out the best qualified men and women in the Kingston School District (Consolidated). It also invites persons interested in submitting their names as candidates to do so. All candidates (Continued on Page 6, Col. 4)

## Illegal, Is Charge Of Demos \$39 Million Fund Passed by Senate

ALBANY, N.Y. (AP)—The Republican-controlled Assembly gives final approval today to a \$39-million deficiency budget that touched off Democratic charges that Gov. Rockefeller was acting like a dictator.

The GOP majority in the Senate passed the measure Monday night, 34-24, amid Democratic allegations that the Republican governor had illegally obligated state funds without legislative approval.

**Other Action Expected**  
Proposals designed to lower costs of college buildings and new passenger cars for commuter railroads also were up for action today.

These were incorporated in constitutional amendments on which voters will make a final decision in November. The Senate gave second approval to both last night and sent them to the Assembly.

One proposal would put the state's credit behind \$500 million in bonds of the State Dormitory Authority, which finances college buildings.

**Would Give State Backing**  
The other would give state backing to \$100 million in bonds to enable the Port of New York Authority to buy the railroad cars and lease them to commuter lines.

In each case, state backing would allow sale of the bonds at lower interest rates than would be charged without the state credit. In other governmental and political developments:

1. The Assembly gave final legislative approval to a proposed constitutional amendment for reorganization of the state court system. Practically all the changes, however, would apply to courts in New York City. The amendment will be on the November ballot.

2. Senate Majority Leader Walter J. Mahoney said the Legislature would not operate in "an atmosphere of panic" in dealing with proposals for expansion of higher education in New York State. He said decisions would be in the best interests of taxpayers as well as educators.

3. Senate Minority Leader Joseph Zaritzki complained in a radio interview that Rockefeller was keeping \$250 million earmarked for higher education "locked in the ice box." He referred to Rockefeller's choice of a pay-as-you-go policy in preference to using \$250 million in bond funds authorized by voters in 1957.

4. Rockefeller reported to a traffic-safety meeting that the 1960 highway death toll of 2,077 in New York State was the lowest in 10 years. He endorsed a bill that would require seat-belt attachment points for cars. (Continued on Page 2, Col. 2)

## Central Hudson Plans To Spend \$7,870,000

The Central Hudson Gas and Electric Corporation announced today that it has embarked on a construction program for 1961 calling for expenditures this year of \$7,870,000 and cited the program as another illustration of its continued confidence in the growth of the Mid-Hudson Valley.

Company President Lelan F. Sillin Jr. said that the utility had spent about seventy-five million dollars in its construction programs in the preceding six years and that the 1961 construction plans "reflect our prediction of even greater expansion of industrial and commercial activity in this region as well as the increasing popularity of the Valley as a residential and recreational center."

One of the major projects included in the program provides for the completion this summer of a major electric substation and a five-and-a-half mile high voltage transmission line east of Poughkeepsie. The project, which was started last September, will provide a third major source of power supply "to meet the growing electrical needs of the greater Poughkeepsie area" and its substitution will be the first on Central Hudson's system to be built with aluminum structures.

A summary of major construction expenditures for this year includes \$1,000,000 for the construction and expansion of electric substations.

An expenditure of \$2,400,000 is budgeted for the extension and reinforcement of electric service to new and existing residential, commercial and industrial customers and an additional \$750,000 is budgeted for similar purposes on the Company's gas system.

Also included in the utility's 1961 budget is \$700,000 for the acquisition of electric transmission rights-of-way in anticipation of future requirements and \$600,000 for the relocation of electric and gas lines along public roads due to municipal, state and federal highway construction projects.

Among the line relocation projects scheduled for this year are those in connection with the construction of approaches to the new Newburgh-Beacon bridge, the arterial highways at Poughkeepsie and Newburgh and the proposed Route 84 in the Beacon area and at South Street in Newburgh.

Central Hudson expects to spend \$86,000 next year for the continuation of its long range program of converting rural distribution circuits from 4160 and 4800 volts to 13,200 volts. Conversions scheduled for this year are in the West Park, Hurley, LaGrangeville and Fishkill areas. The balance of the budget provides for a number of smaller individual projects in connection with the normal expansion and reinforcement of the company's gas and electric systems.

## Miss Anderson Named Advisory Group On Saugerties Schools Elects

Miss Grace Anderson of High Woods, a prominent member of Saugerties School Interest Committee was named chairman of the newly formed Advisory Committee studying problems of building needs at its first meeting Monday night at the high school.

The committee was appointed by Saugerties Board of Education to work out the problems and building needs of the school district.

Others elected were Norman Nitschke of Barclay Heights, assistant chairman; Mrs. Dorothy Carlson of High Woods, secretary, and Mrs. Carolyn France, public relations.

Committee appointees are Robert Schuchardt, Perry Bunyar, John Lasher, George Taylor, Malcolm MacKay, John Luley, Edward Connolly, Anthony Rizzo, Mrs. Wendy Christiana, Mrs. Jeanette Mornille, Mrs. Jean Mandt, Vytantis Mecionis, Vincent Amrod, Michael Piastro, Robert Cline, Mrs. Barbara Russell, Mrs. Inez Steele, Henry Breitenbach, Ernest E. Schirmer and Richard Walton.

Consultants to the committee will be Board of Education members Richard P. Smith, Harry Hoffman, Clarence Brower, Mrs. John Lasher, and Superintendent of Schools Dr. Grant D. Morse. Other consultants will be David S. Cunningham, high school principal; Norman Bolinder, Main Street principal; Miss May Evans, elementary supervisor and Mr. Marion School principal, and Patrick Buonfiglio, Glasco School principal, and Robert Moser, faculty advisor.

Six sub-committees were established including economics, buildings, population, geographical distribution, publicity, and educational goals.

Dr. Robert C. Stewart, educational consultant of Syracuse University presented charts and graphs on the school census figures.

The next meeting of the advisory committee will be held Monday, Feb. 6 at 7:30 p. m. in the high school.

## Havana Is Silent On Rebel Action

HAVANA (AP) — Prime Minister Fidel Castro's regime maintained a curtain of silence today around military operations against rebels in central Cuba's mountains. But it announced execution of three more "terrorists" in Havana and openly purged opposition in labor unions.

The executions, which raised the unofficial total to 580 since Castro took power, were the first since the prime minister announced those responsible for recent bombings and sabotage would be dealt with most severely.

Shot early today in Havana's La Cabana fortress were Juan Mesa Lopez and Julio Llevra Suarez, accused of "counterrevolutionary and terrorist activities," and Balbino Emilio Diaz, charged with attempting to kill pro-Castro radio commentator Jose Pardo Llavra last fall. Llevra Suarez also was accused of spying for the U.S. government.

They had been convicted less than 12 hours earlier. La Cabana was jammed with an undisclosed number of prisoners awaiting trial for anti-Castro activities.

## Rosendale Vols Hold Fire Drill

The Township of Rosendale Firemen's Association held its first fire drill of the year in the village of Rosendale Saturday.

At 1:30 p. m. Chief Robert Markle of Rosendale first called Binnewater Fire Company to dispatch a tank truck and pump to the new Rosendale Food Center. The next company called was Tillson, then Cottekill and Bloomington. High Falls was called in to complete the drill.

John Trataros, owner of the food center, showed the machine room to the firemen and Gus Backert of Cottekill explained the disconnect switches for the electricity. There were several fire hydrants in the locality plus a pond with a possible water supply in case of fire.

The next regular meeting of the association will be held Tuesday, Jan. 24, at 8 p. m. at the Tillson Firehouse. High Falls company will be invited guests. Oscar Hahn is program chairman.

## Thefts Reported

96 Greenkill Avenue, lodge governor.

Entrance to the venetian blind building was gained through the breaking of a rear window. Another was reported broken, apparently for the exit.

Police said \$9.50 was taken from a cigarette machine, and some \$2 or \$3 from a soft drink vending machine.

Entered Before  
Si Semilof, sales manager for the corporation, said the building had been entered three times about two years ago. Alex Semilof, the corporation's president, is in Florida and because of his absence, it was noted, the extent of loss, if any from the cabinet safe, could not be determined. The extent of loss was expected to be known later today.

Theft of some \$300 in cash from the Moose Lodge was reported in early February, 1959. Entrance then was reported gained from an adjacent roof. A safe was pried open and a juke box, bowling and cigarette machines were broken open.

Detective Harold DeGraff began investigation Monday of the Moose Lodge burglary and Detective Gurnsey Burger was assigned to venetian blind plant theft today.

## Other Burglaries

Burglaries were reported at the J. B. Back & Co., Inc., cigar plant, 84 Wilbur Avenue, in early December and on Jan. 9, this year. The earlier safe-cracking attempt failed, but a sum reported at "under \$400" was missing after the second burglary.

Jan. 4 some \$265 was reported stolen from Hamburger Paradise, 19 St. James Street, and some \$10 was reported taken on the same date from vending machines in the New York Telephone Company garage, 85 Bruyn Avenue. Several recent thefts were also reported on the outskirts of the city and in other areas of the county during the past several weeks.

Thefts reported over last weekend included \$120 from Lamareaux's Shell Service station, 443 Broadway, \$25 in petty cash from an office building at 44 Main Street, and \$30 from the Strand Laundromat, Hasbrouck Avenue and East Strand.

## Assembly to Vote

ments in new automobiles sold in New York State after June 30, 1962.

Here are additional details on the deficiency budget:

This request for funds, submitted annually, lists \$39 million in additional state spending for welfare, schools and other purposes. The main budget approved last year included \$15 million for deficiency appropriations.

Therefore, the \$39 million deficiency budget means a net increase in state spending of \$24 million. This would bring state spending for the 1960-61 fiscal year to \$2,144 billion.

See's Dictator's Methods.  
The deficiency budget includes \$15 million for welfare costs that have risen because of higher unemployment and an additional \$10 million in school aid.

In the Senate debate Monday night, Sen. Samuel L. Greenberg, D-Brooklyn, said Rockefeller had committed funds in the deficiency budget without consulting the Legislature. He and other Democrats protested the use of money for State Commerce Department branch offices in Chicago and Los Angeles. The offices were opened last week. They were given a total budget of \$40,000 a year.

Rockefeller acted like a dictator in authorizing the funds and then seeking legislative approval, Greenberg said.

## Inaugural May Be Largest, Lots of Noise Is on Tap

WASHINGTON (AP) — All signs indicated today that John F. Kennedy will have one of the largest, noisiest and most expensive inaugurations in history.

Three former presidents, Herbert Hoover, Harry Truman and Dwight Eisenhower (who automatically gives up his office at noon Friday), and 45 governors will be among those watching as Kennedy takes the oath about 12:30 p. m. EST.

All the 58,000 seats for the big parade down Pennsylvania Avenue — the historic route of the presidents — have been sold.

Although the ball is theoretically by invitation only, so many have grabbed for tickets at from \$25 to \$40 apiece that even with three mammoth halls in use simultaneously there are worries that it won't be possible to squeeze everyone in.

All tickets to the inaugural ceremony, featuring the National Symphony of Washington, have been sold.

Anyone hankering to see the gala Thursday night, with its vast collection of New York and Hollywood stars, can still do so by making a \$100 contribution to the Democratic party. A box for 10 persons: \$10,000.

If you're the type that would like to have inaugural license plates on your car, well, some are left, at \$10.50.

Profits from the gala will be applied to the Democrats' \$3-million campaign debt. Receipts from all other activities will be used to cover inaugural expenses which are expected to total about \$800,000. Any profits after expenses are paid will go into a fund for the 1965 inaugural committee — regardless of which party wins the 1964 election.

With reviewing stands, patriotic bunting and other decorations going up everywhere, this town is beginning to work itself into its favorite state: compound confusion.

## Farm Leaders Attend Co-op Parley Today

Six Kingston area farm leaders are attending the seventh annual membership meeting of the Mutual Federation of Independent Cooperatives at Utica today.

All are associated with the Shawangunk Cooperative Dairies of Kyserike.

Four directors of the Ulster County group are included in the delegation. They are John S. Geary, Wawarsing; John Schreiber, New Paltz; Wilfred Neff, High Falls, and Joseph Browne of Kingston.

Other plant officials taking part are Elton Johnson, the co-op's plant manager from Bulls-ville and Clyde Roosa, a co-op fieldman.

The local co-op, largest in the county, is one of 54 dairy organizations affiliated with Mutual. The day-long business session of the 8,000 farmer member Federation gets underway at 11 a. m. and concludes with a banquet session in the evening.

Congressman Alexander Pirnie of Utica is slated to deliver the principal address at the dinner meeting.

An election of officers, passage of resolutions and several reports of importance to dairymen are among the program's afternoon features.

Geary, a long-time delegate to Mutual, is a member of the Federation's Federal Order committee. The committee is comprised of Mutual's executive committee and four other New York farmer leaders.

## Realtors to Hear Gold on Thursday

Assistant District Attorney Harry Gold will discuss "Real Estate Contracts" and other legal aspects of interest to realtors at the regular monthly meeting of the Ulster County Board of Realtors Thursday, Jan. 19, at Governor Clinton Hotel at 7:30 p. m.

Raymond Korzenzendorfer, president of the board, requests all members to make a special effort to attend this important meeting. Real estate salesmen, new members of the Board, are urged to attend.

Other important matters pertaining to Board business will be discussed.

## Downtown Group To Dine Jan. 18; May Discuss Site

Jesse McHugh (R), majority leader of the Ulster County Board of Supervisors and John J. Gaffney (D), minority leader of the board, have been invited to attend the meeting of the Downtown Area Business Men's Association Wednesday night.

The meeting is scheduled for 7 o'clock at the Rookery Tavern, 41 East Strand, with dinner set for 7 o'clock.

The invitation went to the majority and minority leaders so that a discussion could take place at the business meeting on the occupancy of the county-owned former Cornell Building on Ferry Street.

Both McHugh and Gaffney were requested to appoint representatives in their places should it be impossible for them to attend the session.

Election of officers also will feature the business meeting.

## Station Operator Says Current Off In Burning Pump

A Port Ewen service station operator today said it could not have been electricity in a battered pump that started it and a car on fire Sunday evening.

Charles Montafia told a Freeman reporter that he turned off the electricity when he closed his station at 2 p. m., his usual Sunday hour.

About 6:30 p. m. a car ran into one of the pumps and flames broke out after the impact. Port Ewen Fire Department nearby extinguished the fire, after having been summoned reportedly from a call in another service station in the area.

In a report, a spokesman for the firemen said flames might have started from electricity in the pump, igniting the gasoline.

Montafia said it couldn't have happened that way because insurance underwriters demand the current be turned off before closing time. He has been operating Charlie's Texaco station for six years, he said.

Montafia also said he checked the inside of the car after the incident and found registration papers noting it belonged to Walter Erven Joseph of the River Road, Ulster Park.

Joseph told Montafia he was not in the car when the mishap occurred, and that he had been in a neighborhood restaurant at the time.

Port Ewen Fire Chief Edward F. Mains today said it could have been static electricity that touched off the fire. This could have occurred from friction produced when metal on the auto clashed with that on the pump, he pointed out.

Mains also said that the man who gave the alarm of fire said he saw no one in the car after it hit the pump.

## Demos See Big Budget Revision

WASHINGTON (AP) — Democratic leaders predicted today that the incoming Kennedy administration would ask substantial revisions in President Eisenhower's budget.

In view of the lagging economy, some Democrats challenged Eisenhower's contention that his \$80.9 billion financial blue print submitted to Congress Monday would provide enough income for a \$1.5-billion surplus in the fiscal year beginning July 1.

Republicans generally defended the Eisenhower estimates. But some of them were critical of the proposal to put another \$4 billion into foreign aid.

Senate Democratic Leader Mike Mansfield of Montana said Eisenhower had set aside only "minimum amounts" for housing, urban renewal and aid to education programs expected to be pushed by President-elect John F. Kennedy.

## Rebel Base Falls To Laos Forces

VIENTIANE, Laos (AP)—Pro-Western government troops pushed their way into Vang Vieng Monday and captured the strategic rebel base on the road to the royal capital of Luang Prabang after only slight resistance.

A dispatch from Associated Press cameraman Fred Waters said the town fell at 11:25 a. m. Monday after only a 30-minute battle.

Another government column was inching south from Luang Prabang, with plans for a linkup and then a turn east toward the rebel-held Plaine des Jarres. But the government's prospects were seriously dimmed by reverses on the southern front, where pro-Communist forces on Friday captured Ta Vieng, one of the government's offensive bases for the Plaine des Jarres.

## Study Next E-J Moves

NEW YORK (AP) — Lawyers for rival parties dickered in the background today over the next move in the struggle over control of Endicott Johnson Corp., big Upstate New York shoemaking concern.

Meanwhile, Glen Alden Corp. challenging E-J's family management, still was mum on results of its offer to buy an unlimited number of the shoe firm's 810,000 outstanding common shares at \$30.50. The official word was that Chemical Bank and New York Trust Co. still was analyzing late mail arrivals among tenders responding to the offer which closed last Friday midnight.

## Bank Re-elects LeFever President

LLOYD R. LEFEVER

Attorney Lloyd R. LeFever was re-elected president of Kingston Savings Bank at the annual meeting of the Board of Trustees Monday night. He has been president of the bank since last October, when he was elected to fill the unexpired term of the late Holt N. Winfield.

Alexander B. Shufeldt was named first vice president, a post formerly held by LeFever. Dr. Frederic W. Holcomb Sr. was elected second vice president.

Re-named to their present positions were Clifford A. Henze, executive vice president and treasurer; Joseph F. Brady, auditor, and Catherine M. Henbery, administrative assistant.

It was reported to the board that the renovation project is progressing satisfactorily. No date has been set for the opening of the new front portion of the building.

In the past year, Kingston Savings Bank's total assets increased \$1,217,556 to a total Dec. 31, 1960, of \$31,739,229. Total savings on deposit were \$27,556,132, an increase of \$948,303 over a year ago.

## Radel Strongly Opposes Police From Rural Areas

Mayor Edwin F. Radel, who today attended an Albany meeting of the New York State Mayors Conference legislative committee, said he is in staunch support of a measure that will oppose one permitting non-resident policemen in a municipality.

This law, which permits residents outside a community to become candidates for and to serve on police forces, is among measures due for opposition from the committee, which along with being watchful of pending legislation, proposes its own through its counsel.

It will also seek a fairer share of state aid sums, will ask that sums obtained through local traffic court for violations be retained and not forwarded to the state, and will seek modification of measures which lead to "more and more" tax exempt property.

Requests for state aid to encourage construction of sewage treatment plants, and creation of new sources of water supply, are expected to be made, and assistance in maintenance of arterial highways in communities, is due to be sought.

The police-residency proposal, it is proposed, should apply to New York City alone.

## 5 Dead in Crash

MAGNOLIA, Miss. (AP) — The crack passenger train, City of New Orleans, rammed a butane gas truck at a downtown crossing in Magnolia early today, with first reports indicating five persons killed and six others injured.

"Reports are very vague," the Illinois Central office in New Orleans said, "but we do know the truck exploded when the train and truck collided."

IC authorities said the train's engineer, S. E. (Jimmy) Livingston, and its fireman, W. P. Collins, both of McComb, Miss., were killed, along with the truck driver, who was not identified.

## Ex-Tioga Judge Dies

WATERLY, N. Y. (AP) — Edward W. Eaton, former Tioga County judge and Republican state committeeman, died Monday night in Tioga General Hospital. He was 87.

Eaton first was elected county judge, surrogate and children's court judge in 1936. He retired from the bench in 1952.

## Driver Not Held

HOPEWELL JUNCTION, N.Y. (AP)—A car struck and killed a 60-year-old caretaker lying in the road near this Dutchess County village Monday night.

Police said the driver of the car, Robert Zwissler, 36, of La Grangeville, was not held.

Killed instantly was Elmer Wright of Hopewell Junction. Police theorized the man may have been intoxicated.

## IBM Receives Contract

FORT MONMOUTH, N. J. — An Army Signal Corps contract for \$32,558 has been awarded by the Fort Monmouth Procurement Office to International Business Machine Corp., Neighborhood Road, Kingston, for 160 engineering test models of special equipment.

## Mattress Burns

Firemen checked a mattress fire in the home of Peter Smith, 17 West Strand Monday night. Units from Central and Cornell Stations, Rapid and Wicks company answered a call at 8:21 p. m. The mattress was taken from the house and the blaze quenched. It started from a cigarette, firemen said.

## TOO BIG TO SWALLOW

Twentieth century dictators, large and small, have made a standard practice of trumping up fears of outside invasion. But seldom have they gone to the lengths that Fidel Castro is pursuing in Cuba.

We all understand the reason for stirring the fears. It is a way of distracting the citizens from the discomforts they may be suffering at home. It may encourage them to endure still more.

Moreover, it is a way of solidifying popular support behind a regime. Nothing seems to cement a people more quickly than a threat, imaginary or otherwise, from the outside.

As employed by the German Nazis and the Russian Communists, this technique has served a double purpose. In addition to cementing support, it provides grist for a propaganda effort designed to fix blame on other nations for acts the complainers decide to commit.

For all his attempts to fan the revolutionary fires elsewhere in Latin America, Castro isn't in the same league with these practitioners on that score.

But, at the pretense he is being invaded, he would be hard to match at any time.

What will Castro tell the Cubans when the invasion from America fails to come off?

Naturally he will not admit the hoax. To do that is to acknowledge the crushing truth — that his whole regime is a hoax upon the Cuban people.

Presumably he will try to persuade them that his showy preparations "scared America off." The Cubans who accept Castro are gullible. But are they gullible enough to believe that their tiny island could stand out against the United States if we were really bent upon subduing it?

Most likely they are not. The chances are good that when the invasion doesn't materialize more and more Cubans will begin to have doubts about their hero.

Eventually those doubts will be big enough and numerous enough to be woven into a fabric of defeat for the fraudulent Castro. But as has been noted often before, this is a fabric that only the Cuban people themselves can fashion.

## VACATIONS IN WINTER

If a vacation is a means of getting away from it all, then winter vacations ought to be the best kind because there's so much more to get away from. This may be behind the fact that winter vacations are greatly on the rise.

It is estimated that about 17 per cent of the travel Americans do is done in winter now. That compares with less than 10 per cent a decade ago. The trend seems likely to continue.

The two main factors in all this, doubtless, are general prosperity and better transportation. People have money to spend, and they can get to far places fast enough to play a bit and return within two or three weeks. Imagine, right now, being out there on a sunny beach, or maybe . . .

Oh, well. Does anyone remember where we left the snow shovel?

## THEY HAVE THEIR NUMBERS

An official handbook just published by the Central Office of Information in Britain reveals many interesting statistics about the 52 million people on that tight little island.

The average Briton works from 42 to 46 hours a week and earns less than \$2,100 a year. The average wage in industries is about \$40 for men, \$20 for women. Even so, those figures are almost double what they were 10 years ago.

Britons consume 380 million packages of frozen food a year, a product almost unknown 10 years ago. They also consume more candy than the average person in any other country.

Kennedy appointments indicate that he likes Adlai Stevenson's law partners second only to Harvard alumni.

### THE KENNEDYS AND HOOVER

Many may be surprised at the apparent intimacy of Herbert Hoover and the Kennedys, father and son. Also that the genial last of the Republican Republicans should have spoken of John Kennedy in the following terms at his dedication of the Hoover Dam at Lake Okechobee, Florida:

"I am sure that the American people earnestly wish for the success of the new administration. It is faced with one of the greatest challenges of our whole history."

Herbert Hoover, while loyal to the Republican party and grateful to it for the honors it has brought him, has always adopted a national point of view. He first served under Woodrow Wilson as Food Administrator. His relations with Wilson were closer than with any other President and he wrote a book which is the best apology for that President's career. He subsequently served under Presidents Harding and Coolidge as Secretary of Commerce. He elevated that department to a position it has never since been able to maintain. Then he was elected President.

Franklin D. Roosevelt and Herbert Hoover were friends in the 1920's but when Roosevelt was President, he treated Hoover with utter contempt. During the whole of the Roosevelt regime, Hoover never entered the White House and was never treated with the common courtesy due his position.

However, Harry Truman reversed this attitude. He not only treated Herbert Hoover with the decent respect due to an ex-President, but he employed his services both as a food expert and in the development of the Commission for the Organization of the Executive Branch of the Government. The two men seem to have taken a liking to each other and became friends.

President Eisenhower called on Mr. Hoover before he became President. However, no friendship developed between these men. It is true that Eisenhower reappointed the Hoover Commission but his support was lukewarm. Also, Eisenhower knew that Hoover and most of his friends preferred Senator Robert A. Taft. The startling fact is that Richard Nixon was in the Waldorf Towers where Herbert Hoover and General Douglas MacArthur live, for four days during the campaign without calling on either of them. This must have hurt Herbert Hoover cruelly because he was the man who selected Nixon to run for member of the House of Representatives.

Joe Kennedy, father of the President, was a member of the Hoover Commission and worked diligently. In fact, Mr. Hoover gained considerable respect for the elder Kennedy's knowledge of the complex structure of our government, particularly the new independent agencies. Hoover often told me how reliable Joe Kennedy's knowledge was. Then, for a time, Robert Kennedy was employed as a counsel for the Hoover Commission and Hoover was often interested in his ideas and in his stubbornness. Then, John Kennedy, as Senator, introduced measures in the Senate to implement the work of the Commission. A friendship developed between Mr. Hoover and Joe Kennedy, based on mutual respect.

This evidenced itself when Joe Kennedy called on Hoover to arrange for John Kennedy's meeting with Richard Nixon in Miami after the election. It was an unusual meeting because most often the elected candidate does not see the defeated candidate except during the Inauguration ceremonies. John Kennedy wanted to pay his respects to Richard Nixon without ceremony and Hoover agreed to arrange it, which he did over the telephone.

Since his election, John Kennedy has called on Hoover twice and has personally invited him to the Inauguration. For the first time in many decades, three former Presidents, Hoover, Truman, and Eisenhower will be in attendance. Hoover will not stay too long because of the season of the year when it gets a bit chilly in Washington, but he is interrupting his fishing trip to the Florida keys to spend one day in Washington for this occasion.

Herbert Hoover is now 86 years old and is strenuously engaged in literary enterprises and in fund raising for certain pet purposes such as the Hoover Library, and the Boys' Clubs of America. He puts in long hours with one break after lunch for a siesta. He keeps in close touch with all the news of the day, but his most constant activity is research for his books. He is no longer interested in partisan politics or in small gossip — taking the view that at his advanced age, there is too much to do and too little time to do it.

Claims for Germ Killers  
Are Not All-Embracing

By HAROLD T. HYMAN, M.D.

Written for  
Newspaper Enterprise Assn.

Unhappy consequences may result from a false sense of security, arising from unwarranted claims made in behalf of germ killers.

To take the simplest example, let us assume that you rinsed your mouth, gargled or sprayed your nose with a germicide. Let us also accept the unlikely proposition that, by your action, you completely sterilized the treated area. Yet, within an hour or so at the very most, examination of the recently sterilized area would surely reveal a bacterial population that differed little, if at all, from that which was present before the germicide was applied.

If this observation were not correct, doctors and nurses would not have to put on sterile rubber gloves after they'd complete a 10-minute surgical scrub of their hands.

Take another example. Let us assume that you've cut your finger and poured a germicide into the wound. If you used a concentrated solution, you'd be apt to give yourself a chemical burn and thus provided the bacterial invaders with a rich supply of dead tissue on which they could feed, grow fat and multiply.

If you used a weaker concentration, that would be further diluted by the blood and tissue fluids that continue to ooze out of the cut surfaces, you might kill some bacteria but the survivors would soon make up for those losses by reproducing new generations every 20 minutes or so.

What then, you may ask, is the meaning of tests that show complete absence of bacterial growth in glass test tubes or plates after they've been treated with germicide?

They have very little meaning, I'm afraid. You see there are bacteria and bacteria, just as there are various kinds of animals.

Some of the bacteria that live on our skin surfaces and in our body cavities do us neither harm nor good. They are called commensals which means literally that we dine with them at the same table (mensa = table).

With other bacterial species we have mutual assistance pacts. These allies are called symbionts which means that the survival of each of us is dependent, to a degree, on the survival of the other. The myriads of colon bacilli, for example, that live in our intestinal tracts perform important functions for us. Indeed, we would have difficulty surviving without them. When we kill them off, as we occasionally must before an intestinal operation, we're apt to get ourselves into very serious difficulties. They, on the other hand, cannot continue to exist unless we continue to exist.

Finally there are the really villainous bacteria or pathogens. Many pathogens are easily destroyed in test tubes which is much like breaking clay pigeons in a shooting gallery. Killing them in the human body is more like stalking wild animals in the jungle and having to shoot them while they're charging.

WASHINGTON — (NEA) —

A plan to bring together memorials to Theodore Roosevelt, Franklin D. Roosevelt and other great presidents as parts of the proposed National Cultural Center is being talked up here.

The idea has grown more or less spontaneously from general public criticism of the abstract art designs prepared for the two Roosevelt memorials.

Mrs. Alice Roosevelt Longworth, T.R.'s daughter, declared the "Celestial Sphere" design prepared to honor her father would "desecrate the memory of anyone."

Similarly, Rep. James Roosevelt of California, F.D.R.'s eldest son, declared in what will probably be the greatest understatement of his career, "I have a feeling father would have been for something a little less modernistic."

WITH BOTH OF THESE EX-AMPLES of futuristic or art modern on the pan, there has been considerable feeling expressed that something more living, more creative and more useful, or contributing more to enjoyment of life, would better memorialize the spirits of the two great progressive presidents.

The proposal to combine the two memorials and possibly others in the cultural center is a somewhat natural development. It has met with a generally favorable response.

"I think it is a marvelous idea," says Rep. Frank Thompson (D-N.Y.), one of the principal sponsors of the cultural center authorization legislation. "I think it would provide much more appropriate memorials to these two great men."

## Twenty and Ten Years Ago

Jan. 17, 1941 — A fall of snow, turning to sleet and rain, hampered road travel.

The Kingston Council of Christian Education opposed lotteries even though made lawful for worthy causes.

Mrs. Helen M. Boyce died at her West Park home.

Albert Roberts, of Highland, was elected president of the Federated Sportsmen's Clubs of Ulster County at its annual meeting in the Eichler Hotel.

Jan. 17, 1951 — The city's hotels were reported filled because of the eastern meeting here of the New York State Horticultural Society.

Attorneys Chris J. Flanagan and Robert M. Ortale formed a law partnership.

Lawrence J. MacAvery was elected president of the Kingston Chamber of Commerce.

The Kingston High School basketball team scored a 59-43 win over Catskill.

prospects for raising it by public subscription are dim. The House went along with this last year, but the Senate held it up until designs acceptable to T.R.'s family could be prepared.

MEANWHILE, THE NATIONAL CULTURAL CENTER project is not in flourishing financial condition, either. Total cost has been estimated at 75 million dollars, to be raised by public subscription. It was authorized by Congress two years ago, on condition funds be pledged, work started by '63.

So far, the center has raised only 1½ million dollars—and a half-million of that came from the Hattie Strong Foundation. Mrs. Strong's son, L. Corrin Strong, is executive vice chairman of the center.

The plan has been criticized as too grandiose and costly. Broken into projects, as in separate memorials, it might be more feasible.

Cost of grand salon, big enough to take three Kennedy inaugural balls—has been put at five million dollars; terraces, riverfront landing and amphitheatre another five million.

Opera house, concert hall and playhouse, five to six million dollars each; two smaller auditoriums at three to four million. Plazas, corridors, service facilities, landscaping, 30 to 35 million.

## DO YOU REMEMBER

By SOPHIE MILLER

In the January 1, 1961, Sunday News there is a two page spread called: "He Hunts for Treasure—With a Magnifying Glass." It is about Charles Hamilton of 25 East 53rd Street, New York City, who writes, reads, buys and sells autographs. He started it as a hobby when he was 12 and since then has written more than a hundred articles on autographs. He has written a book on "American Indians" which has been translated into Italian and German. He holds two degrees from University of California.

I took a chance and wrote him about some autographs I had and had seen, and he answered with a very pleasant letter and his signature of course. He also sent a little brochure in which is information that perhaps would interest some of the readers.

For instance one of his first paragraphs reads: "Search your attic or cellar or bureau drawers for autograph treasures which you can turn into spot cash. Any is likely to possess value. And this is important: do not repair anything and, above all, do not destroy any letters or documents before you consult . . . an expert."

Hamilton further explains that "particularly desirable are letters and documents of the presidents, signers of the Declaration of Independence, noted statesmen, generals, authors, composers and scientists. Any important correspondence about the Revolutionary or Civil Wars is especially sought. Letters or diaries which mirror a significant aspect of American life, such as the Gold Rush, Indians, pioneers, whaling, early industries are of value."

He further advises that the modern collector has little or no interest in just signatures on cards or signatures clipped from letters. Signatures in albums which was popular some years ago also are not too valuable so it seems. Signed photos of movie stars, sports heroes, stage favorites, popular singers, opera stars, minor politicians and literary figures of the present day also are not too valuable. Facsimiles have no value.

He also advises not to ship autographs in frames or glass for if glass breaks it may cut the autograph. The autograph should be carefully packed between corrugated paper or in cartons, so it will not be damaged if sent, and should be sent first class registered mail.

Hamilton tells about handwritten letters which are worth more

# Future U.S. Prestige Seen Not Up to Kennedy Alone

By DAVID LAWRENCE

WASHINGTON, Jan. 16 —

What kind of President will John F. Kennedy make? All over the world that very question is being asked. But the answer will not be found in his campaign speeches. Nor will it be obtained by analyzing his personality or career in public service.

In fact, the key isn't in Mr. Kennedy's possession at all. The following persons have the real answer:

Premier Nikita Khrushchev of the Soviet Union.

Chinese Premier Mao Tse-tung of the Red China regime.

Prime Minister Harold Macmillan of Great Britain.

President Charles de Gaulle of France.

Chancellor Konrad Adenauer of West Germany.

These five men control the future "prestige" of the Kennedy administration. For the United States cannot go it alone—it cannot overrule its allies or force its potential enemy to retreat. The Soviet Union, moreover, can produce crisis after crisis based on disunity or differences among the Western allies.

The notion that John Kennedy has become dictator of the world's destiny is fallacious. His hands are tied—just as were those of President Eisenhower. All the hysterical rantings of the critics about lowered "prestige" or lack of "leadership" by President Eisenhower ignores a simple fact—that the head of the American government is not the boss and that he has only one choice, between war or peace.

If he chooses peace, then patience and forbearance, which are easily misjudged as weakness, can be criticized once more. Significantly, W. Averell Harriman, former Ambassador to Russia and designated as Ambassador-at-Large in the new Administration, said on a WOR radio program, taped last Friday, that Americans will have to learn to live with the "cold war" for a long time.

But Representative John W. McCormack, the Democratic party's leader in the House of Representatives, in "Radio News Conference" on Sunday, took a different view as he accused President Eisenhower of "very weak leadership on the world level" and called for sacrifices to roll back Communist gains. He said:

"The American people in my opinion are warriors. We're not quitters. But the people should be given the truth, and they're commencing to get it now through the newspapers."

Discusses Danger Spots

Mr. McCormack discussed Laos, Cuba, Berlin, the Congo and relations with the allies. He spoke of Gen. de Gaulle as "concerned with his internal problems — a courageous man, but uppermost in his mind is France internally, and he's com-

pelled to disregard the world situation.

While not saying so directly, Mr. McCormack implied that Prime Minister Macmillan is inclined to be an appeaser. He remarked that he was sorry to say that Macmillan is "following the pathways that Chamberlain took" when the latter "gave away to Hitler in the hope that Hitler would be satisfied." Mr. McCormack added:

"And Hitler showed that the road of appeasement is the road to war. We need firmness. It means one has got to be capable and have to take the calculated risk of action and firmness against the calculated risk of inaction."

Admirer of Dulles

This is an almost exact description of the art of "brinkmanship" for which the late John Foster Dulles was roundly denounced and ridiculed by many of the speakers of the Democratic party. Questioned about this, Mr. McCormack said that he had been one of the "strongest admirers" of Mr. Dulles's foreign policy in the last two years before the latter's death.

The House Democratic majority leader also declared that defense expenditures should be stepped up because "that's a message the Communists to Khrushchev and them, that they understand." He added:

"If they understand that President Kennedy is doing his own homework, is making his own decisions, and when he makes decisions, he means it, that's the language they understand. That will do more to create the spirit, bring back the unity among our allies. It'll stop countries from being neutral."

The Answers?

What does it all mean? That Mr. Kennedy is going to try to lay down the law to our allies and tell them they must conform to American "leadership"? does it mean he will threaten Khrushchev with war if necessary? One wonders how he is going to get the Communists out of Africa and keep them from more aggressions in southeast Asia. Will it be by offering more money to the "neutrals"?

How, moreover, will Mr. Kennedy deal with Communists, infiltration in the United States—by supporting James Roosevelt's efforts in the House to cut down the money used by the House Committee on Un-American Activities to uncover Communist operations in our own schools and colleges and to expose their efforts to undermine institutions here and throughout Latin America?

Mr. Kennedy already has many advisers. Some believe as Mr. McCormack does, while others want to hurry up and admit Red China into the United Nations and retreat on the Quemoy and Matsu question. Mr. Kennedy, has the sympathy and best wishes of many citizens who want neither war nor appeasement but, instead, a policy of armed patience in the face of deliberate provocations to war. **Still Satisfactory****Seaway Tonnage Under Estimate First Two Years**

DULUTH, Minn. (AP)—St. Lawrence Seaway tonnage in its first two years of operation was below expectations but not disappointing, the Canadian Seaway administrator said Tuesday night.

Shipping volume of 20,600,000 tons in 1959 and 20,286,788 tons in 1960 compared with early estimates of 25 million tons in 1959 and 29 million in 1960, J. R. Rankin noted.

But the actual cargo movement, while below estimates, "has been regarded generally with satisfaction when it is recognized that the estimates made some time ago are necessarily based on anticipated conditions which may or may not prevail in the immediate period," Rankin added.

The slight decline in 1960 shipping, he said, traced in part to reduced imports of iron ore to the

United States. Ranking forecast substantially higher iron ore movement.

This, he said, is "significant in offering the possibility of more two-way cargoes such as grain downbound and ore upbound, adding to the cargo-carrying capacity of the seaway by reducing the number of vessel passages void of cargo."

The development of overseas traffic, he said, would require well developed lake ports, frequent and regular services, and time to demonstrate the economies of the Seaway route.

Rankin spoke at the first Seaway institute, sponsored by the University of Minnesota's Center for Continuation Study. About 30 firms are represented.

**Pick Alternates Today**

LOS ANGELES (AP)—Selection of four alternate jurors for the third Finch murder trial begins today following agreement Monday on a regular panel of nine men and three women.

Dr. R. Bernard Finch and his pretty paramour, Carole Tregoff, are charged in the fatal shooting of the physician's wife, Barbara Jean, on July 18, 1959. Two trials ended with deadlocked juries.

**West Point Would Get Most for Building Work**

WASHINGTON (AP)—The Defense Department hopes to spend \$6,862,000 on military construction in New York State in the fiscal year beginning July 1. The bulk of the funds would be for training facilities at West Point.

The department's request to Congress Monday to authorize appropriations included these projects in Upstate New York:

Army — Military Academy, training facilities, \$4,222,000. Air Force—Griffiss AFB, Rome, operational and maintenance facilities, \$305,000; and Plattsburgh AFB, operational and maintenance facilities, \$577,000.

Army National Guard—Batavia Armory, training facilities, \$234,000; and Genesee Armory, training facilities, \$233,000.

Air National Guard — Schenectady County Airport, operational facilities, \$620,000.

**Plattsburgh Fights B47 Bomber Reduction**

WASHINGTON (AP)—An Air Force plan to sharply reduce the number of B47 bombers at the Plattsburgh, N.Y., Air Force Base was under protest today as a threat to the national security and to the economy of the Northern New York area.

The Air Force said Monday it will deactivate 25 of the 75 B47 at the base in June. It said the move was feasible "without significant degradation of our combat capability" because Atlas missile sites were being readied.

Rep. Carleton J. King, R-N.Y., challenged the contemplated reduction in manned aircraft and urged Air Force Secretary James H. Douglas to move B52 bombers to Plattsburgh.

King asked why runways should be lengthened at other bases when Plattsburgh runways were long enough to handle B52s.

The deactivation also will mean a reduction of 1,100 men at the base, the Air Force said. But, it said, 700 men will be needed in the next 18 to 24 months to man the 12 Atlas launching sites under construction near Plattsburgh.

**Test Results Due Today of Bodies Found in Ashes**

MONTREAL (AP)—Government pathologists are expected to reveal tonight results of their examinations of the bodies of the 11 Vosburgh children found in the ashes of their Noyan, Que., shanty home Dec. 29.

Provincial police already have reported the children's mother, Mrs. Marjorie Vosburgh, was dead before the fire started but there has been no announcement of the cause of death.

The husband and father, Abel Vosburgh, 63, told police an exploding stove set the shanty afire and that he was unable to rescue his family. He is being held without bail.

The coroner's inquest into the deaths resumes tonight in Bedford, 20 miles east of Noyan and 45 miles south of Montreal. Coroner J. H. Boileau said he intends to call Vosburgh to testify.

Dr. Boileau signed certificates of accidental death shortly after the fire without holding an inquest, but opened one after police began investigating and the bodies were exhumed.

**Two Major Milk Co-ops Propose 1-Price Formula**

SYRACUSE, N.Y. (AP)—Two major dairy cooperatives suggest that a single federal formula for pricing milk in the New York-New Jersey and the New England milksheds would raise farmers' income by millions of dollars.

The merger of the two milksheds for pricing Class I milk would provide "a more permanent type of economic relief," the Metropolitan Cooperative Milk Producers Bargaining Agency and the Dairyman's League said Monday.

For immediate relief in February and March, the cooperatives said they were pressing a proposal they estimated would raise the fluid-milk price as much as 30 cents a hundredweight (46.5 quarts) per month and the price paid farmers as much as 15 cents.

The plan calls for suspension of a supply-demand factor in the pricing formula.

The immediate and long-range proposals have been submitted to the U.S. Department of Agriculture.

Had the one-price plan been in effect last year, it would have added \$25 to \$30 million to the income of 49,000 farmers in the New York-New Jersey milkshed, the cooperatives said. They said New England dairymen would have benefited also.

The one-price plan calls for expansion of the New England basic Class I formula to include supply-demand and other economic factors of the New York-New Jersey formula.

The two cooperatives claim 22,000 members in the New York-New Jersey milkshed.

## No Defense Job Labor Chief Is Hopping Mad on Snub to Keenan

WASHINGTON (AP)—Robert S. McNamara is choosing his own Defense Department team—but in doing so the secretary-designate has gotten himself and the incoming administration in a jam with leaders of organized labor.

McNamara, 44, former Ford Motor Co. president, turned down a union chief reportedly recommended for a key defense post by President-elect John F. Kennedy himself.

### Rejected Several

It is understood, moreover, that McNamara, a Republican, rejected several other persons outside of labor ranks whose names were sent to him for appointment to important posts in his department.

Joseph D. Keenan, secretary of the International Brotherhood of Electrical Workers and an AFL-CIO vice president, is the labor man McNamara turned down.

Keenan, who had built up a World War II reputation as a successful labor trouble shooter, was tagged to become the assistant defense secretary for manpower.

A week ago in New York, Kennedy had to call in Keenan, who had accompanied him on his campaign, to convey the bad news.

"I was told McNamara is picking his own team and I don't fit," Keenan said.

George Meany, AFL-CIO president, was hopping mad. Keenan is highly regarded by his colleagues.

Meany said Keenan's name was suggested because Kennedy wanted a union official placed in a high defense post.

Last Friday morning, McNamara, having gotten wind of the ruckus he had caused, visited McNamara's office and came away thinking things had been smoothed over.

### Gratuitous Insult

They hadn't been because Meany, when asked about the situation Monday, said "McNamara's visit was a gratuitous insult."

McNamara declined comment on the Keenan rejection. But he did say he wanted it known that "I am not anti-labor."

Kennedy after telling Keenan he couldn't name him to the Defense Department offered an appointment, instead, as ambassador to New Zealand. Keenan turned down that offer.

The labor official said he never wanted a political job anyway, and as for the fuss, "It's all in the game, I guess."

## Northern Ulster Has Temperatures Near Zero Mark

Temperatures in the northern part of Ulster County varied as much as 11 degrees with low points at Blue Mountain Reservoir, Town of Saugerties and the High Woods-Mt. Marion area.

Kingston's official reading reported by the City Engineer's Office was 11 above.

The overnight low recorded at Saugerties Municipal Building was 8 above.

Unofficial lows of 3 above were reported at Blue Mountain and the High Woods-Mt. Marion areas.

Western parts of the county recorded much higher temperatures. A low of 14 above was reported at Woodstock, and 12 above at Brown's Station on the Ashokan Reservoir.

Temperatures were reported rising rapidly and expected to reach the mid-30's by afternoon.

## Financial and Commercial

NEW YORK (AP)—The stock market was down a bit in moderately active trading early this afternoon.

The Associated Press average of 60 stocks at noon was off .70 at 227.10 with the industrials down 1.50, rails off .20 and utilities unchanged.

Key stocks declined from fractions to about a point mostly. Profit taking was overdue, brokers said. It was the first clear-cut market decline since the opening market session Jan. 3.

The Dow Jones industrial average at noon was 3.01 at 630.18. Corporate and U.S. government bonds advanced.

Appointed to state boards of trustees were:

C. Vernon Stratton of Oxford, David L. Follett Memorial Law Library, Norwich, for a term ending Dec. 30, 1965, to succeed Miss Minnie L. Seelye, Norwich, whose term expired.

John B. Van DeWater of Poughkeepsie, Joseph F. Barnard Memorial Law Library, Poughkeepsie, for a term ending Dec. 30, 1965, to succeed Normington School of Beacon, whose term expired.

None of the posts is salaried.

Other Senate confirmations Monday night included:

Robert A. W. Carleton of Garrison and Donald B. McKinley of Chappaqua, members of the East Hudson Parkway Authority.

William H. St. Thomas of Gloversville, member, Saratoga Springs Commission.

Plans were developed Monday for the Kingston Area Chamber of Commerce to take a still more active part in state legislation.

The chamber's 15-man state legislative affairs committee met yesterday at the Governor Clinton Hotel. Chairman John W. Egbert presided.

Specific types of legislation were assigned to members of the committee and each of the several sectional area businessmen's associations were represented by liaison members. The latter will call attention of important legislation to their respective groups.

The committee will study all state legislation of importance to the business community, designed to help create more job opportunities. A more favorable business climate would encourage expansion and create more jobs.

The Chamber of Commerce State Legislative Affairs Committee urges that all citizens take an active part in helping shape legislative action in Albany. From time to time the committee will release suggestions. Specific issues will be studied and action recommended to the board of directors.

As a result of yesterday's committee meeting the following suggestions were developed to be used by those writing to elected State Representative, Assembly or Senate Committee members or to other state officials: (1) Use individual letterheads and sign letters personally, (2) Indicate at the beginning of the letter the specific bill in writing about the issue, (3) Tell how it affects business, employment and the community, (4) Be factual, be brief and be reasonable, and (5) send a carbon copy of the letter to the Chamber of Commerce. Other suggestions will be made, including the names of committee chairmen and other pertinent information.

Two-Term Limit Set

No persons who have already served two full terms on the school board of the Kingston District (consolidated) shall be eligible for endorsement by the Committee, except by unanimous vote of the Committee.

In the event that any member desires to "disassociate himself" from the decision of the Committee, or to campaign for a non-Committee candidate, he shall first present his resignation to the chairman in writing. No member of the Committee shall be selected as a candidate.

It is understood, according to the by-laws, that "each member of the Committee has a definite obligation to assist the selected candidates in campaigning for election."

Each member of the Committee must give of his time and effort to help the selected candidates, if there is a contested election.

All regularly scheduled meetings of the Committee shall be open to the public, except as provided under Article 14, Section 7—sessions during which the qualifications of candidates are

deliberated.

## Senate Confirms Choice of Clute, Other Trustees

ALBANY, N.Y. (AP)—The Senate has unanimously confirmed Gov. Rockefeller's appointment of Warren W. Clute Jr. of Watkins Glen as a trustee of the State University.

A long list of confirmations Monday night included the reappointment of Samuel Hausman of New York City as a university trustee.

The posts are unsalaried. Both terms will expire June 30, 1970.

Clute succeeds Joseph J. Myler of Rochester, whose term expired.

The Senate also confirmed the 15 original appointees to the New York State Council of the Arts. Rockefeller has said he hopes the council will spur development of the arts in the state.

The members include Mrs. W. Averell Harriman, wife of the former governor, of New York City; for a term expiring April 1, 1961.

Actress Helen Hayes of Nyack, Seymour H. Knox of Buffalo and Louis C. Jones of Cooperstown, for terms ending April 1, 1962.

Dr. Richard B. K. McAnathan of Ulster for a term expiring April 1, 1963.

will be processed by the Committee.

Streifer pointed out that there are people in the district who are eminently qualified to serve on the board of education, people who might be persuaded to offer as candidates if they are discovered and properly approached.

Two Terms Expiring

The terms of Robert Herzog, president, and Robert O'Reilly, vice-president, expire next May. Since consolidation January 1, 1959, members of the board are elected. Prior to that time they were appointed by the mayor.

Thomas Mannix presented the by-laws last night and Mrs. Melvin Mones the slate of officers.

The purpose of the Committee, according to the by-laws, shall be to bring forth from the school district and elect the most able and best qualified candidates for the school board. Members of the Committee, whether delegates or members at large, are responsible "solely to the children, the parents and the taxpayers in this school district."

To Meet in October

The organizational meeting of the Committee will be held in October, at which time the nominating committee will present the slate of officers for election. Subsequent meetings will be held in January, February, March, April and May and upon the call of the executive committee.

Each member of the Committee has the privilege of presenting the name of one person who wishes to be nominated for the school board. Prospective candidates may apply to the Committee in writing if they wish to be considered. Each prospective candidate must appear in person to present his qualification sheet and to be interviewed by the Committee.

After all candidates have been interviewed the Committee as a whole shall meet in closed session, to deliberate upon the qualifications of each candidate. A candidate for each vacancy shall be selected by separate ballot. A nominee will be chosen by a majority vote of the members present.

## Franklin Awards Are Decided for 9 State Schools

VALLEY FORGE, Pa. (AP)—Freedoms Foundation today cited 134 schools in 30 states for classroom programs designed to bring about a better understanding of freedom and the American constitutional republic.

The foundation has honored similar school programs since 1950 but this is the first time these awards, now named Benjamin Franklin Awards, were given before those in 18 other classifications on the traditional date of Feb. 28—Washington's birthday. Jan. 17 was Franklin's birthday.

Freedoms Foundation describes itself as a non-political, non-partisan, non-sectarian organization created to honor schools, individuals and organizations for work in behalf of the American way of life.

Nine New York State schools received national honors. The winners were:

Buffalo Public Schools, Buffalo; Public School No. 9, Brooklyn; Shubert School, Baldwin; Public School No. 197, Brooklyn; Cleveland Hill South Elementary School, Cheektowaga; Central School, Ithaca; Cross Street School, Williston Park, Nassau County; Washington Jr. High School, Mount Vernon; and John Dwyer Jr., High School No. 60, The Bronx.

World's largest fruit packing shed is located at Placerville, Calif.

## Operator Injures Back As Earth Mover Topples

Harold Crantz, 38 of Colonial Gardens was reported in good condition at Kingston Hospital today where he is being treated for back injuries suffered when the earth mover he was operating overturned Monday at Route 209 near Sawkill.

Crantz, an employee of John Arbort Inc., contracting firm working on the arterial route through Kingston, was operating a Euclid earth mover.

Kingston State Trooper David Wachtel said Crantz was operating the earth mover along the creek, skidded on the snow into the side of the creek and turned over. The battery on the huge vehicle broke loose and struck Crantz in the back, he told troopers.

## HIGHLAND NEWS

### OES Installs New Officers

HIGHLAND—Installation of officers took place at the meeting of Highland chapter, Order of the Eastern Star, Tuesday night, with Francis Sherow, retiring patron, as installing officer.

Those inducted were Mrs. Marjorie Glenn, matron; Myron J. Wells, patron; Mrs. Estelle Weed, associate matron; Harry B. ### Georgia U. Has Quiet Day, Night, Officials Hopeful

ATHENS, Ga. (AP)—The University of Georgia passed a day and night of integration without serious violence and school officials hoped firm action by local authorities against rowdiness would prove effective.

The second entry of Charlayne Hunter, 18, and Hamilton Holmes, 19, Atlanta Negroes, effected by repeated orders of a federal court caused no disorder among the 7,500 white students.

Rumors spread over the city Monday that a new demonstration was planned for Monday night. The campus was quiet, however, and officials hoped that disciplinary measures against those identified with last week's disorder would restore normal conditions.

A few coeds carrying small satchels or overnight bags were seen leaving Myers dormitory Monday night. Miss Hunter is housed in that building. Dormitory sources said the girls are planning to stay with friends in sorority houses or homes in the city until excitement over the presence of Miss Hunter ends.

## Rockefeller Will Explain His Plan On Care for Aged

ALBANY, N.Y. (AP) — Gov. Rockefeller will outline his plan for medical care for the aged Wednesday in his second weekly radio-and-television report on the 1961 legislative session.

State Health Commissioner Herman E. Hilleboe and Senate Majority Leader Walter J. Ma-

honey will join Rockefeller in the 15-minute discussion.

The taped program will be carried statewide by CBS radio at 8:15 p.m.

WTEN, Albany; WPTZ, Plattsburgh, and WHEN-TV, Syracuse, will show the program at 11:15 p.m.

On Thursday, WBNF-TV, Binghamton, will present the report at 5:45 p.m. and WKTV, Utica, at 6:10 p.m.

On Sunday, WVET-TV Rochester, will show it at noon and WCNY-TV, Watertown, at 4:45 p.m.

## Tomorrow Only, Scalp Specialists In Kingston, New York Will Show How to Save Hair and Prevent Baldness

Wednesday, January 18, at the Governor Clinton Hotel in Kingston, New York, Staff Director, Mr. M. E. Gray will give a free hair and scalp consultation between 1 p. m. and 8:30 p. m., to hair worried men and women.

Erickson Hair and Scalp Specialists, the oldest and largest organization of its kind makes regular visits to Kingston, N. Y. throughout the year to assure you of success in a minimum period of time. Erickson is now in its seventh year. Last year

can easily follow this new modern methods in the privacy of your home.

Before After Mrs. Virginia Barnes

In a great majority of cases of baldness and excessive hair loss (a condition described as male pattern baldness), we know of no treatment including the Erickson treatment that is of value. None of the persons shown have male pattern baldness.

### GUARANTEE SATISFACTION

You will be given a written guarantee by the Erickson Hair and Scalp Specialists for the length of time treatment is required on a pro-rated basis. Don't be skeptical — this guarantee alone assures you of success. So, why put off your hair problem any longer?

Before After Mr. K. Fryer

For your free hair and scalp consultation go to the Governor Clinton Hotel between 1 p. m. and 8:30 p. m., on Jan. 18, in Kingston, New York and ask the room clerk for Mr. M. E. Gray, room number, or call him. He does not make appointments, so come in at your convenience. Consultations are given in private. You will not be embarrassed in any way.

Before After Mr. T. A. Melton, Jr.

alone, over one-quarter million Erickson home scalp treatments were used.

Baldness is slow and gradual, even in the most common forms. The source of the most common causes are mistreatment and neglect.

If you now, or have in the past, noticed dandruff, itchy scalp, excessive oiliness or dryness, excessive hair fall or thinning at the temples or crown, you should see Mr. M. E. Gray tomorrow. He will determine the type of individual treatment required, explain to you what results you can expect, how long you will have to use Erickson treatment, and how much the cost will be, which is usually less than imitators.

**FREE CONSULTATION**

There is absolutely no charge or obligation for your free hair and scalp consultation. The only obligation is to yourself, to save your hair and gain more coverage if your "hair factory" is still producing even "fuzz." You

## New York State Income Tax Simplification

(Seventh in a Series)

Most nonresidents of New York State must file their New York tax returns on Form IT-203. However, in the case of a husband and wife who file a joint Federal return, a new form, IT-209, must be used if the couple elects to file separate State returns.

This new Form IT-209 is part of the program of tax simplification authorized by a recent amendment of the Tax Law which conforms the New York personal income tax law more closely to provisions of the Federal Internal Revenue Code. Nonresidents will also note that both Form IT-203 and IT-209 are two-page forms. The former or Form IT-203 was a four-page form. This means less paper work for them and a consequent saving of time.

In addition to shorter tax forms, the new law has also changed the requirements for filing a nonresident return. If a nonresident's New York adjusted gross income (explained below) exceeds his exemptions (the same as those he may claim for Federal tax purposes), a 1960 return must be filed. If a refund is claimed, a return must be filed to obtain it, even though a return may not be required otherwise.

**Taxed Only on New York Income**

Under the new law, the items taxable to a nonresident are the same as before. Only the method of computing them has been changed. A new term appears on the nonresident returns for the first time this year, even though its counterpart on the Federal form is familiar. That is **NEW YORK ADJUSTED GROSS INCOME**.

This item on a nonresident return includes that part of the nonresident's Federal adjusted gross income which is derived from or connected with New York State sources:

1. Income from a business, trade, profession or occupation carried on within New York State.
2. Rents, gains or profits from real or tangible personal property located in New York State.
3. Taxpayer's share of any partnership income or gain from a trade, business or profession carried on within New York State.
4. Taxpayer's share of estate or trust income or gain derived from New York sources.
5. Income from services rendered in New York State.

**Deductions**

Like resident taxpayers, a nonresident may claim a standard deduction of 10% (up to \$1,000) of his New York adjusted gross income. Or, if he itemized the deductions on his Federal return, it may be to his advantage to claim itemized deductions on his State return. As a general rule, the itemized deductions which a nonresident may claim are limited to those Federal itemized deductions, such as business expenses, which produced taxable income from sources within New York State. Losses from any business carried on or from business property located within New York State may be claimed if they are allowed as Federal deductions. A deduction for contributions may be claimed only for donations made to charitable organizations operating under the laws of New York State.

More complete instructions regarding allowable itemized deductions on nonresident returns will be found on Forms IT-203-I

and IT-203-P. These forms may be had at any New York State District Tax Office or from the State Income Tax Bureau, Alfred E. Smith State Office Building, Albany 1, N. Y.

### Exemptions, Statutory Tax Credit and Returns

Nonresidents are allowed the same exemptions and statutory tax credits as resident taxpayers. Accordingly, when completing Form IT-203 or IT-209, the exemptions claimed are to be based upon the allowable Federal exemptions and the tax credit (single—\$10; married and filing separate returns—\$12.50; married and filing a joint return, head of a household, or surviving widow or widower with dependent child—\$25) is determined by the individual's status for Federal tax purposes.

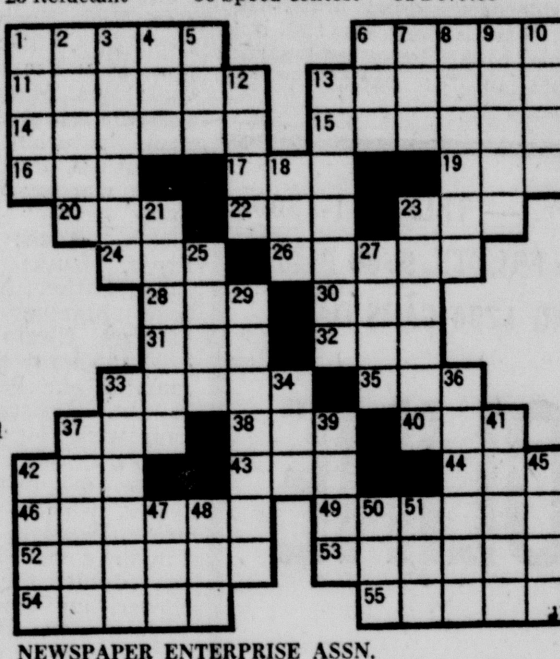

In certain cases, when a nonresident pays a state income tax to the state where he lives, and also pays a state income tax to New York, he may be entitled to a credit against his New York tax. The credit depends upon reciprocal provisions which differ from state to state.

Before mailing the return, check it for completeness and mathematical correctness. If a joint return is being filed, both husband and wife must sign the form at the bottom of page 1. Failure to sign the return or furnish all necessary information will result in sending the return back to the taxpayer for completion and a delay in the payment of a refund if one is due the taxpayer.

Next in the series: UNINCORPORATED BUSINESS TAX.

## Glancing Over TV Bill of Fare

By CYNTHIA LOWRY

AP TV-Radio Writer

NEW YORK (AP)—One thing you can say for television is that it's not content just to talk about the weather. It has done something about it—so much that it sometimes takes special skills to find the forecast in a TV weather report.

Obviously, the TV people with their marvelous visual tools could not allow some well-tailored announcer to look into the camera and say simply: "Tomorrow is going to be cold and rainy."

No, we have to see it. The weather reporter enthusiastically draws swooping lines on a map of the country while chattering merrily about highs roaring down and fronts building up.

Just as we are trying to figure out if that means a local hurricane or blizzard, our instructor slips in the forecast with the speed of light. If attention is diverted for a second, we miss it. But that isn't all. In our vicinity (and I suspect in yours, too) TV weather reporting is largely woman's work, and the woman is usually a glamor girl. Therefore, while the gentlemen of the great home audience are concentrating on her curves and the ladies are criticizing her clothes and hairdo, the forecast is beclouded further.

## Today's Business Mirror

By SAM DAWSON

NEW YORK (AP) — The budget that President Eisenhower submitted to Congress Monday opens up a guessing game rather than setting a final guide for taxpayers and business.

The guesses are implied in both the spending and income sides of the ledger.

In spending there's always the question of what Congress will finally do with any presidential budget. Added this time is the uncertainty of the task force reports to President-elect John F. Kennedy.

If all their suggestions were adopted spending would rise well above the \$80.9 billion the outgoing President calls necessary, and which itself is \$2 billion more than in the current fiscal year.

## What Is Needed?

In receipts, his estimate of \$82.3 billion will be obtained only if the current business slide is reversed so that tax collections will swell.

and only if Congress votes higher gas taxes and increased postal rates.

So the budget leaves business and the taxpayer about where they were — that is, guessing how much the Kennedy administration will want to spend, how much Congress will approve, and how far the business slackness is likely to go and when a recovery can be expected.

## Bills Must Be Paid

The taxpayer, and that includes both individuals and business, is concerned in what happens to the budget because ultimately the bills have to be met. And if the Treasury doesn't achieve the \$1.3-billion surplus that President Eisenhower hopes for, but runs up a deficit instead, both individuals and business could be under revived inflationary pressures.

Business is further concerned because just how much the government spends and for what it puts out its money vitally affect many companies and whole in-

dustries. Eventually this widens out to take in most of the economy.

## Only Two Items

Studying the proposed budget, business notes that only two items call for less spending in fiscal 1962 than in the current fiscal year. These are interest on the public debt, down because interest rates are down, not because of any drop in the total debt; and for commerce, housing and space technology.

Everything else is up. Defense spending is up \$1.5 billion, but this was expected. So was the increase in outlay for veterans services and benefits. President Eisenhower wants more for foreign aid than Congress voted for this fiscal year.

## Projects Asking More

Purely civilian projects that are asking more money for the next fiscal year are labor and welfare, agriculture and agricultural resources, natural resources, and general government costs.

Some projects don't come under the regular budget at all. These are the sums collected and spent for such endeavors as Social Security, jobless payments and superhighways.

Adding these, the total cash to be spent in fiscal 1962 becomes \$101.8 billion, or \$3.9 billion more than this year. And the total money expected to be collected from the public becomes \$133.1 billion, or \$4.1 billion more than this year.

These are figures that business studies, since they furnish a better idea of how much government will withdraw from the public's pockets and just how much could be available sooner or later to business either in government orders, or in cash in the pockets of those who get salaries, or payment from the government.

## Former Bank Employee On Probation for Theft

BUFFALO, N.Y. (AP) — A former bookkeeper at the Steuben Trust Co., in Hornell has drawn a two-year suspended sentence for bank fraud and embezzlement involving about \$9,000.

Federal Judge John O. Henderson Monday placed Miss Dorothy E. Whitford, 28, now of Rochester, on two years' probation after she pleaded guilty to fraud and embezzlement charges.

She was charged with making a false entry to defraud the bank of \$8,965 last July and with embezzling \$337 last Sept. 6.

## No Office

Wyoming does not have a lieutenant governor's office. If the state's governor dies or is disabled, the secretary of state succeeds him.

## Buffalo Man Is Held In West Side Shooting

BUFFALO, N.Y. (AP) — A 27-year-old man was killed Monday night in a street shooting on Buffalo's West Side. Police later picked up an unemployed construction worker and charged him with first-degree murder.

The victim, Paul Stolfo, of Buffalo, was shot in the chest with a .25-caliber pistol on a street corner near his home. Police said a relative at the scene named his assailant.

Charged with the shooting was Louis Panepinto, 36, of Buffalo. Police said the two had had a fist fight in front of Stolfo's home an hour before the shooting because Panepinto was annoying Stolfo's wife.

## Accuse 2 Upstate Men In Obscene Mail Case

CHICAGO (AP) — Two men from Upstate New York are among 51 accused by a federal grand jury of sending or conspiring to send obscene material through the mails.

Charged with conspiring to mail obscene matter in indictments returned Monday were:

Gerald Cushing, 29, of Ithaca, N.Y., identified as a vice president of a radio broadcasting company, and Robert E. O'Toole, 25, of Utica, N.Y., identified as a college student.

General Wilkinson built Fort St. Clair, near Eaton, Ohio, in 1791; it was used as a supply depot by General Wayne.

## Ike's Latest Will Be Memory Piece, Yardstick

## A Study in Expenses on Running U.S.: '61 Doubles Truman Rate, More to Come

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP) — This gives a picture of how government expenses have gone up, particularly military expenses.

In 1950 President Truman sent his last budget to Congress before the Korean War started. It called for a total of only \$42.5 billion for all government expenses. Out of the total, he said, the military needed only \$13.5 billion.

## War Soars Expenses

Came the war. Expenses soared. The war ended over six years ago. But increased government responsibilities have kept expenses high. And military expenses, because of the intense contest with communism, have mounted.

In his budget message to Congress Monday President Eisenhower asked almost \$81 billion—nearly double the \$42.5 billion Truman requested to cover all government spending.

And — whereas Truman asked for only \$13.5 for the military, out of his total budget of \$42.5 billion, Eisenhower requests \$42.9 billion for the armed forces, more than Truman asked for the whole government in 1950.

But Eisenhower's budget — for the fiscal year beginning July 1 and ending June 30, 1962—will be

both a memory piece and a yardstick.

In figuring a budget every agency of government has to estimate how much it will need to run another year. All these figures are reviewed and reviewed in an effort to keep them down.

This all takes a lot of time and doing, so much that the Eisenhower administration began putting together last fall the budget Eisenhower turned over to Congress Monday.

## Own Spending Ideas

Obviously President-elect John F. Kennedy won't have time all for this. He won't submit his own budget until this time next year. But this year his administration will have spending ideas different from Eisenhower's.

Since Kennedy's ideas on what needs to be done — expressed in the campaign — go beyond anything Eisenhower had in mind in his budget, Kennedy probably will want to spend more than Eisenhower allowed for.

He'll run into a lot of criticism and heckling on this. His critics will use Eisenhower's budget estimates as a yardstick for measuring Kennedy's programs.

## Dealing in Optimism

Still, Eisenhower was dealing in optimism in telling Congress he thought that he had figured things so closely that the government

should wind up in the black.

While he suggested spending about \$81 billion, he thought government income, from taxes and other revenue, would be even larger and that the country would wind up with a surplus of about \$1.5 billion.

But this was optimism based on the hope that there would be a surplus only if the country became more prosperous and Congress increased postal rates and the gasoline tax and set up a new tax on jet fuel. Maybe it would, but its inclinations run the other way.

## Rochester Institute Will \$2.5 Million

ROCHESTER, N.Y. (AP) — Rochester Institute of Technology will receive an outright bequest of \$2.5 million under the terms of a will filed for probate Monday in Surrogate's Court here.

The will was that of Mrs. Grace C. Watson, 90, of Rochester, who died here Jan. 7. The court said she left a \$4 million estate.

RIT President Dr. Mark Ellinson described the bequest as "the largest single gift in the history of the institution."

The remainder of her estate was left to relatives, friends, and local charitable institutions.

At its narrowest point, the Formosa Strait, which separates Communist and Nationalist China, is only 75 miles wide.

### Church Group Plans Benefit Card Party; Committees Named

The Altar-Rosary Society of St. Ann's Church in Sawkill will meet on Sunday, Jan. 22 at 2:30 p. m. in the church hall to make final plans for a benefit card party.

Co-chairmen of the event, which is scheduled for Friday, Jan. 27 at 8 p. m., are Mrs. Paul Butler and Miss Cecelia Goldpaugh. They will be assisted by the Mmes. Lawrence Byrne, Michael Gaul, and Norbert Wolslegel.

Tickets are now available from members of the Society and after each Sunday Mass. Public is cordially invited to attend.

### Turnau Opera Will Perform in Florida

The Turnau Opera Players have scheduled 16 performances of opera in English, from February 18 through March 15, at the original 18th Century Asolo Theater of the Ringling Museum of Art in Sarasota, Fla.

Rossini's La Cenerentola will open the T.O.P.'s second season at the State of Florida's Ringling Museum. This opera has been in the repertoire of the company during their six summer seasons in Woodstock, N. Y., and was performed with the Kentucky Opera Association and the Louisville Symphony in December, to close an extended tour of the Midwest under the management of the National Music League.

Other operas to be presented will be The Marriage of Figaro and Così, Fan Tutte by Mozart, and two Baroque operas, Dido and Aeneas by Purcell and Il Combattimento by Monteverdi; the last two as double bill will be accompanied by a string quartet and a harpsichord.

Returning to the Asolo stage will be such favorite performers as Alan Baker, Carolyn Chrisman, Ray De Vail, Lucille Sullivan and Nancy Williams. Karl Moser, general director and conductor of the Kentucky Opera Association while Moritz Bornhard is on leave of absence at the Hamburg Opera House, will again be the musical director of the company and Barbara Owens, one of the founders of the Turnau Opera Players, will handle stage direction.

### Mary E. Whitford Attending Special Semester Program

Mary E. Whitford, daughter of Mr. and Mrs. George A. Whitford of 176 Wrentham Street, this city, is attending the American University, Washington, D. C., as a participant in the Washington Semester Program.

A history and political science major, Miss Whitford will return to Alfred University, Alfred, New York, next term.

This week the students attended a seminar on "The Role of a Judge" conducted by the Honorable Potter Stewart, Associate Justice, U. S. Supreme Court. There are 90 students enrolled in the Washington Semester Program.

Approximately 86 colleges and universities throughout the United States participate in the Washington Semester Program of The American University. Honored students from these schools study national government in action for one semester of their junior or senior year.

Each student writes a research paper on a subject of his choice, takes regular classes at The American University, and attends field seminars three times a week. They also visit national shrines and places of interest in the Washington area. The program is administered through The American University School of Government and Public Administration under the supervision of Dean Cathryn Seckler-Hudson.

### AAUW Hears Talk On Problem Solving, Mental Attitudes

The Kingston Branch of American Association of University Women met in the library of the George Washington School on Wednesday, Jan. 11 to hear John J. Erickson, IBM engineer, speak on "Creativity—An Attitude."

In his talk Mr. Erickson explained that creativity can be utilized in daily problems when there is an awareness of thinking processes. In education, analytical and judicial abilities are stressed and developed. Mr. Erickson said, whereas creative abilities are underestimated and frequently neglected. The latter ability is often left to be developed and nurtured after classical education has ended. Stiffers to be aware of in developing creativity are culture, fear, environment, judgment, etiquette, whereas positive attributes to creativity are curiosity, observations, imagination, and the question "why." Proper understanding and awareness of the above factors serve to aid one in coping with daily problems. Mr. Erickson stated.

The speaker presented a sim-

ple technique for developing a creative approach to problems. First spend much time to accurately define the problem — to view the problem from all conceivable angles. Second, work out several solutions; third, select the preferred solution; and finally, test results by relating the solution to the problem. If unsatisfied, one must go through the process until a satisfactory resolution is obtained. This, the speaker noted, often results in a re-definition of the problem.

Hostesses for the evening were Dorothy Gilbert Wilson and Mrs. Paul Prentice.

### AN EASILY OFFENDED SISTER-IN-LAW

Question: Last Saturday my husband stopped at his brother's house to pick up some tools. I went along with him as we were going to do some shopping afterwards. I did not bother to get out of the car as he was only going to be a short while. When my sister-in-law discovered that I was in the car she became highly indignant and told my husband that I could have at least come in to say hello. She has made quite an issue of this and considers it a slight to her. For my own satisfaction, I would like to know if I committed a breach of good manners by not going into the house?

Answer: If your husband was going to stop long enough to have a chat, you should have gone into the house with him; especially as you must have known that your sister-in-law is easily offended.

### Leaving One's Bed Unmade

Question: When visiting in a strange house for several days, is it customary in this country to make the bed on the final day (there is no help), or should one leave the bed in good order but unmade? I have always chosen the latter for it appears to me that one is assuming that the bed will be slept in if made.

Answer: You are quite right. Should you make the bed it will only have to be unmade again so that the sheets can be laundered.

### Asking to See Engagement Ring

Question: One of my friends just recently became engaged. As soon as I saw her I asked to see her ring. I was told by another friend that this was not the proper thing to do and that I should have waited until she showed me the ring herself. Will you please tell me if I was wrong?

Answer: On seeing the ring on her finger, it was not improper to exclaim, "Oh is that your ring? Do please let me see it."

It will be "Father's Night Out" on Tuesday, Jan. 24 when the West Hurley Parent-Teachers Association sponsors a special evening for its male members.

Chairman of the annual Father's Night program is Lloyd Collins, vice president of the West Hurley P-TA. Mrs. Andrew Horvath is president. Assisting Mr. Collins with arrangements is Larry Deede.

Highlighting the evening's program will be a speech on "New Automotive Teaching Techniques." The guest speaker will be Henry Yochman, field engineer and education instructor at the IBM Command Control Center, Federal System Division, Kingston. Mr. Yochman will explain the possible utilization of programmed textbooks and a teaching machine. He will be introduced to the membership by Mr. Deede.

Richard Stewart of the Rip Van Winkle Council of Boy Scouts has also been invited to give a brief talk on Cub Scouting in the area.

Mr. Collins promises an interesting evening and urges all fathers to attend. Refreshments will be served.

### Methodist Conference Music Workshop Set At Highland Church

A workshop on church music and worship will be held Jan. 28 beginning at 10:30 a. m. at the Highland Methodist Church for pastors, organists, choir directors, singers and members of worship commissions of the 282 Methodist Churches of the New York Conference.

A worship service will be conducted by the Rev. L. Wayne Dunlap, host pastor, from the new Order of Worship suggested by the 1960 general conference of the church.

Dr. Alfred B. Haas of the department of practical theology, Drew University, will speak at 1 p. m. on What Constitutes a Good Service of Worship? At 2 p. m. Dr. Haas and G. Leonard Matthews, organist-choirmaster at Salem Methodist Church, New York City, will assist at group workshops.

Following a refreshment period, the Rev. Philip S. Watters, pastor of Washington Square Methodist Church, New York City, will speak on Use of the Hymnal.

Dinner will be served at 6 p. m. followed by a choral concert by the Drew University Choir.

## Gordon's Speech Points Up Need For Dedication

"These are times that demand the very best from all of us," Philip Gordon, president of the Ontario Board of Education, said in a speech at dedication ceremonies for the Reginald R. Bennett elementary school in Boiceville, Sunday.

"I feel sure that our great faith in our American system of education, as well as our pride in our local school system, will cause us to measure up to our responsibilities and together we shall face the challenge of our time," Gordon added, in a pointed reference to the upcoming near-million dollar bond issue for 16 new classrooms in the Ontario district.

Gordon said the dedication of the Bennett school represented a step forward "in attempting to provide the necessary physical facilities caused by the explosive pupil population."

"Soon, you will be called upon to vote to provide additional classrooms," the president added, "to alleviate the classroom shortage. This then becomes not

alone your right and your power, but also your responsibility."

"The school board for its part," Gordon continued, "has the responsibility of furnishing leadership that will work out and put into effect a program of education of a superior quality than that mandated and supported by the state. A failure on the part of the Board of Education to do this is, in my opinion, a failure in leadership. It takes no great powers of leadership or imagination, or even very much effort, for a school board to carry out the minimum requirements of the state. Effective leadership by a school board means using the minimum requirements as a foundation on which to build and expand, reaching beyond to assume the best."

"The very character of our society," said Gordon, "is determined by the degree and quality of its educational program. What we do in our school districts, cumulatively, throughout the state and nation, determine directly the fate of America and the future. The public school system is the greatest example of man's humanity toward man. The system, therefore, places the power for education in the hands of the people at the local level."

Gordon had warm praise for District Superintendent Reginald R. Bennett for whom the new 14-room elementary school was named. "I know of no individual who is more truly dedicated to the cause of good education and to the educational welfare of the children than Reg Bennett. I feel honored to be numbered among his friends."

## St. John's Plans 15-Weeks Course On Religion

Mrs. Andrew Savage of West Shokan, district instructor for Confraternity of Christian Doctrine, will conduct a course in religious teaching, it has been announced by the Rosary-Altar Society of St. John's Roman Catholic parish.

In a speech before the society last week, Mrs. Savage gave an informative talk on the importance of having religious knowledge as a basic foundation for meeting the demands placed on us in every day contact.

Mrs. Savage pointed out the need for spiritual ideals that are lacking in most of the modern homes today. Mrs. Savage will conduct the course for anyone interested in furthering religious education in the area.

The 30-hour course will begin on Friday, Jan. 20, at 8 p. m. at the Woodstock rectory. Each lesson will be for two hours and will run for 15 weeks on alternate Fridays. Anyone wishing additional information may call Mrs. Savage at West Shokan, or Mrs. James Smith, West Hurley.

**Plan Annual Dinner**  
After the recitation of the Rosary, led by the Rev. Richard Stewart, Mrs. Fochi conducted the business meeting. Plans were announced for the annual dinner to be held in February. Mrs. Theodore Rose was appointed chairman and all final details will be announced at a later date. All members are reminded that the annual dues are now due.

Father Stewart addressed the group briefly. His topic was the

Christian home and what ideals help to make a house into a home.

Following the meeting refreshments were served. Hostesses for the evening were Mrs. Daniel Fochi, Mrs. Gisella Gleich, Mrs. Teresa Semler, Mrs. Mary Melert and Mrs. Laura Vogel.

The February meeting will be held immediately following the annual society dinner on Feb. 8.

## Uyecki Article Relates Story Of St. Gregory's

The Bulletin, official magazine of the Episcopal Diocese of New York, carried an interesting article by the Rev. Lloyd H. Uyecki, vicar of St. Gregory's Episcopal Church, in its December issue.

The excellently written article deals with the institution of a stewardship campaign in the local church and tells in poignant manner the origin and growth of St. Gregory's.

St. Gregory's was accepted as an organized mission of the New York Diocese in 1954 and two years later the Department of Missions completed the beautifully modernistic building on Route 212, a short distance beyond the Woodstock Country Club.

Part of the construction money was raised by the mission, but a far larger portion came from the Diocese in the form of a gift and a loan, Father Uyecki writes. "Things went well for us in our fine, new church, Membership grew, parish organizations sprang up, and by last spring a parish house had become a 'must.' Back to the Diocese we went for another loan. That's when the question came up of how we were going to repay our new loan, as well as the one on the church building. We would obviously have to raise the level of giving. We didn't think much of the idea, but there seemed to be no other way."

### Memorable Experience

Father Uyecki then relates of a meeting of the Advisory Board with Eric E. Ley, Diocesan Director of Stewardship, on the problem of raising more money for needed facilities and expansion. In poignant phrase, Father Uyecki describes the tremulous impact of a memorable speech by Mr. Ley. In recalling the spiritual uplift of Mr. Ley's words, Father Uyecki says, in part:

"The parish house is no longer the end—all of existence for us—though it seems likely that it will be built. We have received much more than a building in our stewardship campaign together. The Diocese is no longer the Diocese working through God's plan in our church, here in the Catskills; yes, but also in the whole inhabited earth."

"And our church didn't start in the corn crib, or even in that marvelous upper-room experience in the homes of the people of Woodstock, but in that first upper-room experience 2,000 years ago. We are a mission of the Diocese, but we now understand our mission as that of witness to everyone we met."

## Farrell's Motel Has Been Sold

A Woodstock landmark, Farrell's Motel, has been sold. Mr. and Mrs. Frank B. Farrell have announced sale of their motor court, known as Farrell's Motel, located on Route 375, Woodstock, to Theodore Braun and Elroy F. Gluer of Franklin Square, Long Island.

Ill health forced Mr. Farrell to sell the motel.

The new owners have taken possession of the property and are operating the business. They intend to enlarge the motel and improve the property.

Farrell came to Woodstock originally as a retired New York City printer. He operated the former Brass Rail restaurant (now Buckman's) for a few years before building his motel.

**Christian Science  
Topic To Be 'Truth'**  
"What Is Truth?" is a vital question to be considered at Christian Science services Sunday in Woodstock.

Scriptural selections in the Lesson-Sermon on the subject of "Truth" will include this reassuring statement: "I will cry unto God most high; unto God that performeth all things for me. He shall send from heaven, and save me from the reproach of him that would swallow me up. God shall send forth his

## Shokan

SHOKAN—Mrs. John Valland and son, John, are spending a few days at their place on the reservoir road here. John, who attended Pratt Institute before entering the army, expects to resume civilian life in the near future.

A son born to Mr. and Mrs. William Jackson Jan. 1 has been named Jay William. Mrs. Jackson is the former Elaine Macaluso of Ashokan, and Jackson, local telephone company representative, is a war veteran of service in the army Signal Corps.

Neighboring Delaware County's population, 43,540, is much lower than in 1950 when the enumeration totaled 44,185 persons. Myra Hamlin and Evelyn Miller, Kingston, were recent callers at the local museum of antiques.

Some of New York City's trucks are busy hauling logs to the sawmill at the reservoir headworks.

Mr. and Mrs. Emil Hozza and daughter of the Whitfield area were recent callers in Shokan.

Birthdays Jan. 18 include that of Mrs. Frank Carle of the old state road. The former Muriel DuBois is daughter of Lemuel E. and Jessie Winnie DuBois.

The mountain sawmills are buying birch and basswood, also hard maple suitable for bowling pin stock.

Charlotte Nelson, New York woman who has a number of friends here, has purchased a house trailer and is now making her winter home in Romany Park, St. Petersburg, Fla.

Alonso VanWagoner who currently heads the Phenicia No. 950, Legion Post, is a former resident of Shokan and also of Ashokan.

Interesting Olive notes from the Old Timer's copy of The Freeman, Oct. 20, 1881: "C. S. Maltby is building a large sawmill in Haver Hollow which will be run by a turbine wheel under a 40-ft. head. Maltby who is also erecting a large coal shed at West Shokan, gives employment to 50 men. . . . Timothy McCullough who left this section 18 years ago, came here last week to remove the remains of his mother and brothers, who died in 1857, from their graves near the one time family home at the foot of Big Balsam Mountain to the Shandaken Cemetery. Timothy and his brother Robert now own two large tanneries in Pennsylvania."

## Suffers Broken Leg In Sleigh Accident

Richard Grennie, 10, of Old Route 209, Highland, was taken to Vassar Hospital, Poughkeepsie, Monday afternoon for treatment of a broken leg suffered in a coasting accident.

State Police at Highland reported the boy was sleigh-riding about 5:30 o'clock off Old Route 209 when his sleigh ran down an embankment into the path of a car operated by Robert Upright, 54, of Route 299, Highland. Upright told troopers who investigated he was driving about 28 miles an hour when the boy came down the bank from the north and crossed the road in front of the car. The front wheel struck the sleigh.

mercy and his truth" (Psalms 57:2, 3).

The importance of prayer in understanding Truth is emphasized in this citation to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (11:27-31): "Prayer cannot change the unalterable Truth, nor can prayer alone give us an understanding of Truth; but prayer, coupled with a fervent habitual desire to know and do the will of God, will bring us into all Truth."

scouts lined up in front of him. As neat a row as that no scoutmaster had ever seen before. He put the boys through a few simple drills which they carried off with precision and finesse. Then he ordered the boys to raise their right legs to a distance of one foot off the ground. They all raised their legs to the right height, but one little fellow raised his left, instead of his right. Seeing the one flaw in an otherwise perfect formation, the scoutmaster rushed down the line shouting angrily. What little nincompoop raised both legs? ## Woman's Club Will Aid Needy With Food Gifts

To help supplement the food of those families in the area needing assistance, the woman's club of Rosendale will set up baskets in the Rosendale Food Center in Rosendale, Bagley's Market in Tillson and Feinberg's Market in High Falls.

Those desiring to assist may leave any non-perishable food item which the woman's club, under the direction of Mrs. William Burns, Mrs. Donald Hasenflue and Mrs. Nicholas Pezzello will distribute. The project came about as an outgrowth of the January meeting of the group when club members evidenced a desire to supplement their giving, in addition to the bringing of items once a month at club meetings. Members expressed the opinion that others might like to assist also and local merchants have been willing to cooperate.

Murray Weiss, psychologist for the Kingston Consolidated Schools as well as consultant for the Mental Health Association addressed the group regarding many aspects of mental health.

## Hearing Aid Services

7 MAIN ST., KINGSTON  
FE 8 3970

We service and repair all makes of hearing aids.

A film relating the problems of the returned mental health patient was shown by Kevin Reynolds. Mrs. Vernon Fresse was program chairman.

A communication asking the Woman's Club of Rosendale to send two timekeepers to convention on April 11 and 12 was received. In addition, Mrs. Frederick Knorr communicated with the club asking that two assistants be sent for the arts and crafts contest to be held on the above dates.

Mrs. Arthur O'Leary and Mrs. Howard Mansfield will attend the state convention at Kiamasha Lake.

Mrs. Burns, chairman of the sunning committee, reported having sent five sunshine baskets at Christmas time.

Mrs. Irwin Smith, a member of the club's library committee, told of the Christmas party held at the library with which many of the club members assisted.

The question of continuing with some form of decoration or exhibit to be held at the library was discussed and members voted to try to arrange for these monthly. Mrs. Cyril Tegeler and Mrs. William Knott will be in charge for February.

Mrs. Peter Mathews, chairman of the loan closet, reported great demand for more wheelchairs and suggested that the club purchase additional units. The receipt of \$15 from Miss Susan Hornaker, \$10 from Mrs. Ethel Mark and crutches and cane from Mrs. Knott was acknowledged.

Plans for the renovation of the former Maple Hill School were mentioned and the group will assist in the near future.

Mrs. Knott told of the trip some of the members took to New York and of the annual women's club Christmas Party held at Williams' Lake. Members expressed their appreciation to Mr. and Mrs. Walter Williams, Mrs. Smith and Nicholas Pezzello as well as to the committee who helped make this a successful event.

Mrs. Warren Larabee was appointed new program chairman and will be assisted by Mrs. William Kloeppel and Mrs. Hollis Harvey.

Mrs. Mansfield, treasurer of the club as well as newly appointed town welfare officer, reported that the Girl Scouts will hold a neighborhood meeting Friday, Jan. 20, at 7:30 p. m. at the Christ the King Episcopal Church, Stone Ridge. A movie will be shown entitled, Follow the Girls. She said that there was a need for at least seven girls to form a Senior Girl Scout Troop and that anyone interested could contact Mrs. Herman Miller of Cortkill.

It was reported that the woman's club had sent \$10 to help defray some of the expenses of the American Legion Christmas party for the children of the Town of Rosendale.

Mrs. Edward Garland and Mrs. Peter Benicosa were guests of the club. Hostesses were the Mmes. Fresse, Anthony, Guerrerri, Sid Gene Van Winkle. The meeting was held at the Rosendale Library.

**Meetings Scheduled**  
Members of the Priscilla Circle of the Guild for Christian Service of the Rosendale Reformed Church scheduled its first meeting of the new term at the home of Mrs. Irwin Smith this afternoon.

Ruth Circle meets Tuesday, 8 p. m., at the home of Mrs. John Kinstry of Main Street, Rosendale, and Dorcas Circle at the same time at the home of Mrs. Milton Shufelt, Tillson Estates.

Naomi Circle meets Jan. 23 at 8 p. m., at the home of Mrs. Harold Arnold, Washington Park, Rosendale.

All members and friends may attend. New members may join any circle which they find convenient.

Those attending will bring any articles and ideas which they would like to contribute to the church fair scheduled Saturday, July 22.

The January meeting of the Rosendale Parent-Teacher Association will be held on Wednesday, 8 p. m., at the Rosendale school.

## Murray Olderman Will Speak At Annual Old Timers' Fete

Murray Olderman, incomparable cartoonist and sports writer of the Newspaper Enterprise Association, will be the principal speaker at the 11th annual Old Timers Baseball Association dinner on Jan. 25 at The Barn in Kingston.

A native of Spring Valley, Olderman has been with NEA for the past eight years as an associate of Harry Grayson, well-known to Kingston sports audiences.

Olderman creates the delightful cartoons and cartoon strips that are regular features of The Daily Freeman's sports pages. He also authors the breezy, hard-hitting column "Between You and Me," a sharp, incisive commentary on the American sports scene. He is credited with several major sports "scoops" in recent years.

Much sought as a public speaker, Olderman was elected president of the Football Writers Association of America last year and has done extensive traveling on the speaking circuit in his new post.

**Originated Trophies**  
Prior to joining the NEA syndicate, Olderman worked on newspapers in Minneapolis and Sacramento, Calif.

He originated the Jim Thorpe Trophy for the most valuable professional football player and the Newspaper Enterprise Association All-Professional football team trophy. The

MURRAY OLDERMAN

pro selections are made by the players themselves.

Now in his mid-30's, Olderman obtained his education at North Carolina, Northwestern and Missouri, switching because of the military programs in force during World War II. Commissioned by the army, he served in the European theater.

Olderman will speak at a dinner at which three former baseball stars—Willard Sahloff, Tommy Lewis and Dick Dulin—will be inducted into the OTBA Hall of Fame. The dinner is open to the public.

## Wilt Leads NBA With 37.6 Mark

NEW YORK (AP) — Towering Wilt Chamberlain, Philadelphia's peerless pointmaker, heads into tonight's National Basketball Association all-star game as the league's top scorer, most accurate shooter and best rebounder.

League statistics released today show the Warriors' ace with a 33-point bulge over runner-up Elgin Baylor of Los Angeles in the hotly contested battle for individual scoring honors. Chamberlain has scored 1,616 points for a 37.6 game average.

Baylor has scored 1,563 points for a 37.1 average while maintaining his lead over third place Oscar Robertson of Cincinnati, 1,465 points and a 31.2 average for a commanding margin over teammate Jack Twyman, holding fourth place with 1,220 points.

Chamberlain is tops in field goal percentage with a .482 mark, slightly better than Twyman's .480. The suit is No. 1 in rebounds with 1,212 for a 28.2 average that gives him a wide edge over Boston's Bill Russell.

**BIG DAY FOR MICKEY**—Outfielder Mickey Mantle is flanked by general manager Roy Hamey, left, and field manager Ralph Houk as he inks his 1961 contract with the Yankees in New York City. Pact calls for a reported \$75,000 which would make Mickey the highest paid player in the American League. (AP Wirephoto)

## BETWEEN YOU 'N' ME by MURRAY

Probably nobody noticed it, but until the St. Louis Hawks dumped the Philadelphia Warriors in Detroit not too long ago, the Warriors had been unbeaten on neutral courts since 1958. . . .

Maybe, as Willie (Call Me Bill) Hartack says, the hours from 12 to 5 at the race track are strictly business and not for socializing . . . but we never had any trouble getting the un-jocose jock into a ping-pong game in the tack room . . . and he'd play until he won at least one match. . . .

The trouble with the New York Knicks is the trouble with New York basketball . . . the pros haven't been getting those good territorial draft picks because college basketball has been low-grade since the scandals of a decade ago shoved all the schoolboy talent out of town. . . .

Wonder if you know that the Most Valuable Players in both leagues, Dick Groat and Roger Maris, might have been wearing switched uniforms if a trade last winter had turned out . . . because the Athletics held it all set for Maris to go to Pittsburgh for Groat . . . until Buc skipper Danny Murtaugh shuddered at the thought of getting along without his balding shortstop. . . .

Like what Private Bill Stafford, the young Yankee ace, said when he was asked at his army training camp how long he thought it would take him to become a colonel. . . . "I ain't" said the rightlander, "gonna stick around and find out." . . .

What's this about a pow-wow between Lamar Hunt and Clint Murchison, Jr., impresarios of the battling Dallas pro clubs? . . . The rival leagues could make peace if there were some way for the AFL owners to save face (as well as money, because Lamar threw a rumored \$700,000 down the drain this year). . . .

Sluggo Roy Sievers is Squirrel to those who know him back home in St. Louis . . . but it has nothing to do with baseball. . . . Sievers was a basketball hot-shot around the Mound City as a kid, "and I was always aound the cage so they called me 'Squirrel.'" . . .

A business trip to Australia will mean the fruition of a long dream for Del Mills, the No. 1 man in every phase of harness racing. . . . During World War II he was in a mule train service on the Burma Road, but Del never made it down the Malay peninsula to Singapore . . . so he's going to detour to the Crown Colony on his January trip down under, where he's scouting horses for the third Roosevelt International at Westbury. . . .

The Dallas baseball team in the American Association will be sold any day . . . meaning fit to major league aspirations for the Bateson-Carter owner combine which had pushed expansion to the Dallas-Fort Worth area . . .

The problem Floyd Patterson faces in his rematch with Ingemar Johansson is to retain respect for the Swede . . . for, as he explains it, when he loses respect he gets careless and gets tagged. . . . "I remember," notes the champ, "when I was an amateur I knocked a man out in one and a half rounds. I lost respect for him. The next time we fought, I won a decision. The third time he beat me." . . .

Between you 'n' me, what's disturbing baseball men about the return of Leo Durocher to the big leagues is not his own efferecent character . . . but the type of cronies he's been associating with in recent years. . . .

## Johansson Gives His Reasons Why He Lost Bout to Floyd

By ED CORRIGAN  
Associated Press Sports Writer

NEW YORK (AP) — Ingemar Johansson has a secret and he's not telling a soul.

"I know for sure what I did wrong in my last fight with Floyd Patterson," he said today, "but let it be a secret with me."

Then he proceeded to list an armful of reasons why Patterson won the heavyweight championship from him with a fifth-round knockout last June 20.

1. He fought too many exhibitions after winning the title from Patterson in 1959, and that made things too easy for him.

2. He lost six pounds the night before the fight and entered the ring at 192. This time he wants to hit 196 or 198.

3. Anyhow, it was a sucker

punch that caught him on the button.

Johansson arrived Monday night from Paris, and will attend the New York Boxing Writers dinner tonight where Patterson will get the Boxer of the Year award. Then he heads for Florida to look for a training camp. The third go in their series is scheduled for Miami Beach on March 13.

"I've looked at the films of the fight many times," said Johansson and I still don't know how I ever got caught with that punch. It never happened to me before and I don't intend to let it happen this time.

"After all, I knocked Floyd out once and floored him in the second fight. I'm sure I'll win this one. I've knocked him out a thousand times in my dreams and I know they'll come true."

SAN FRANCISCO (AP)—About the only thing set with the San Francisco Giants for 1961 is Willie Mays in center field.

Willie probably will bat in his customary No. 3 spot, but Manager Alvin Dark says he isn't sure about that.

Quite a contrast with last year when you could almost tick off the batting order before the club went into spring training.

"We're going into training with a lot of things in mind," Dark declared. "How we go in is not necessarily how we'll come out."

Can he find a capable relief pitcher? Will Willie McCovey regain his 1959 batting form? Where will Harvey Kuenn fit in? Will any rookies make the grade? Can the Giants land another starting hurler? How about catching?

Those are questions Dark faces. Right-hander Jack Sanford could become the relief pitcher.

Dark told a news conference Monday. "If Sanford's control is dependable, he could be very useful. He is a fellow who likes to pitch. It's been proven the more he works, the better he is."

On McCovey, who flopped last season after being the rookie-of-the-year in 1959, Dark said, "McCovey tried to pull the ball because he thought the wind would help him if he pulled. I think if he goes back to hitting through the middle and just hits where the ball is, he'll be a good hitter again."

Dark will await until spring training to decide where Kuenn will play.

### Schedule Is Listed For St. Mary's Cagers

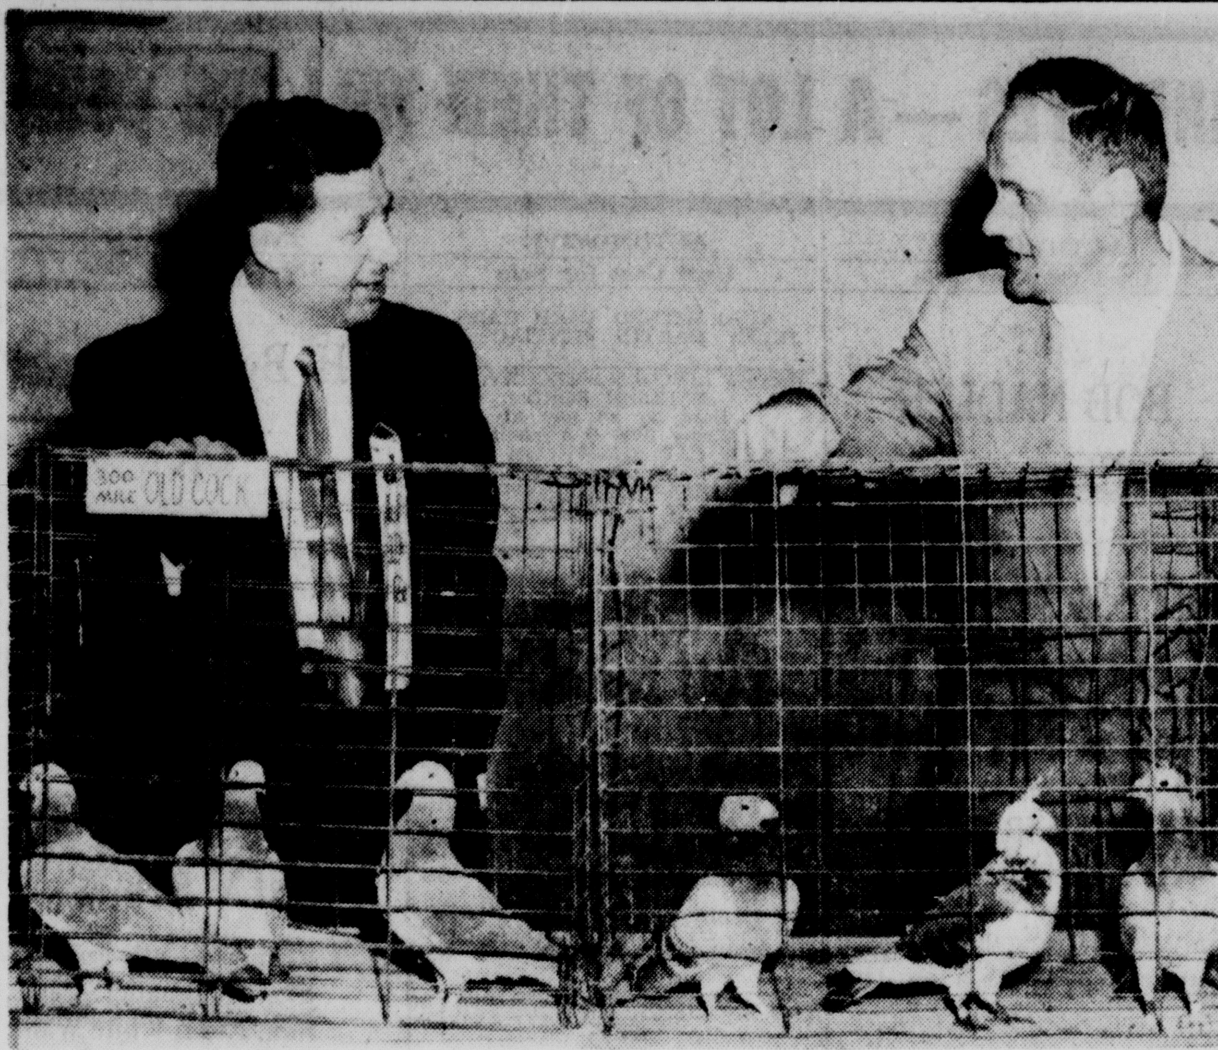

St. Mary's CYO cagers have a busy schedule on tap this week. Tonight the Junior A team will meet St. Joseph's at the George Washington school gym at 7:15 and the junior club will play St. Philomena freshmen at the Lake Katrine school at 8:30 p. m.

Tomorrow night, the jayvee and junior squads will play at the Mt. Marion gym. On Saturday, the Tyro I quintet meets St. Peter's at the George Washington school at 9 a. m. Tyro II has two games with Immaculate Conception at 10 and at Lake Katrine at 11:30 and the jayvee team will face the Mt. Carmel jayvees at the Poughkeepsie gym at 10 a. m.

## At Pebble Beach

## Qualifying to Begin Today For Bing Crosby Tournament

By P. D. ELDRED

Associated Press Sports Writer

PEBBLE BEACH, Calif. (AP)—Qualifiers for 16 open professional spots in Bing Crosby's \$50,000 national pro-amateur golf classic were fighting it out today over the treacherous Pebble Beach course preparatory to the start of championship play Thursday.

Survivors of the qualifying test will fill out field of 150 of the world's finest professionals, will fill out a field of 150 of the world's finest professionals, paired with an equal number of classy amateurs in this 20th playing of the famed Crosby clambake.

Defending titlist Ken Venturi, now shooting some of his best golf, will be on hand to attempt the difficult and rarely accomplished feat of repeating against the likes of Arnold Palmer plus a host of other former Crosby champions and tournamentwise aces.

Palmer, noted for his surging finishes and leading money winner in the nation last year, will undoubtedly be the men to watch after coming from four strokes behind to win the San Diego Open Sunday in a "sudden death" playoff with Canada's Al Balding.

In the pro-amateur event, which along with the professional competition makes the Crosby a double tournament, Louisiana's Jay Hebert and his five-handicap amateur partner, Roger Kelly, will

be on hand again to try to duplicate their 1958 victory.

Bud Ward and Bob Silvestri, pro-am winners last year, are teamed again in defense of their title.

## Geoffrion Leads NHL Scoring Race

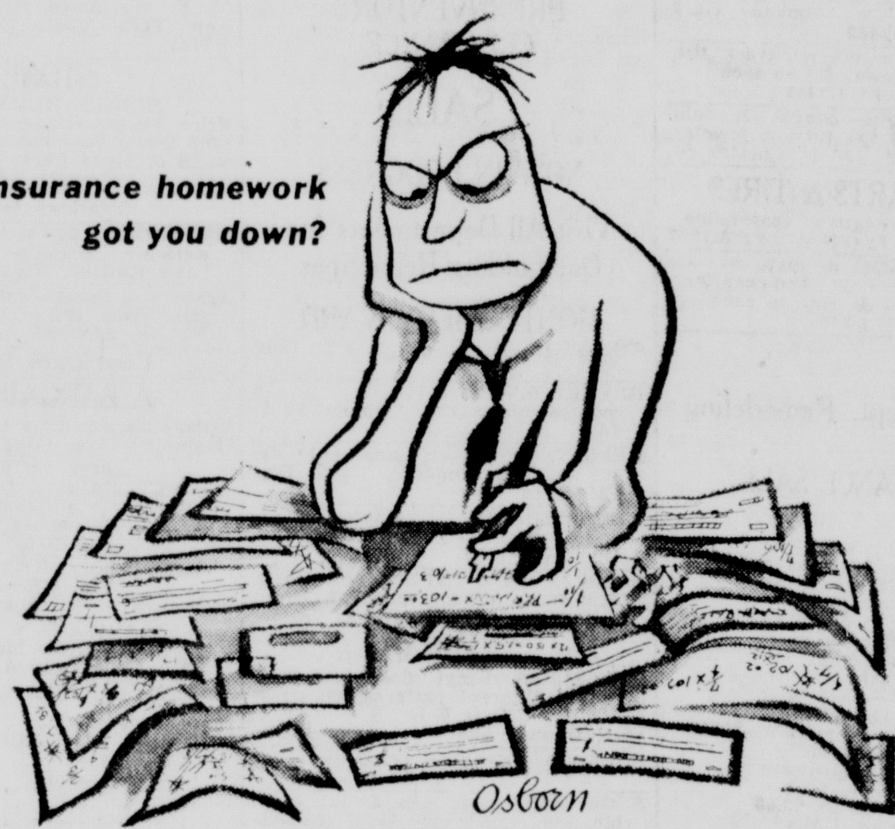

MONTREAL (AP) — Dickie Moore of the Montreal Canadiens came up with the best point production last week among the top men scrambling for the National Hockey League scoring leadership and regained second place.

Moore collected four goals and two assists for six points. With his present total of 35 points he is seven behind teammate Bernie (Boom Boom) Geoffrion and one ahead of Frank Mahovlich of Toronto Maple Leafs, according to official statistics released today.

Geoffrion, who missed Montreal's last game because of an injury, scored one goal and three assists in two previous games during the week. He has 62 points on 27 goals and 35 assists. Moore has a 30-25 count.

Mahovlich tapered off on his prodigious goal production, scoring only one—and no assists—in three games. But he is still well out in front on goals scored, with 37. Moore is closest with 30. With 17 assists, Mahovlich's point total is 54.

If "go-it-alone" insurance planning cuts into your valuable time, SECURANCE by Nationwide is for you. SECURANCE lets you choose from 131 different coverages. You choose exactly what you need, no more, no less. And what a selection: life, health, car, home, property, farm or business protection. You save money because there's no duplication of coverage...and because Nationwide rates are among the lowest in the industry. You save time and worry because all your protection problems are handled by one unbiased insurance adviser, your Nationwide agent. Ask for SECURANCE—see your Nationwide agent or contact our office listed below.

Whichever size you go for, you'll go better in a Dodge

Some people like full-size cars. Others prefer compacts. Either way, it's OK by us. We make both. Our standard-size car is the Dodge Dart. It is priced model for model with Ford and Chevrolet. However, Dart has features its major competitors can't match: A unitized, rust-proofed body.

Torsion-bar front suspension. And a new device called an alternator-generator that charges at idle, makes a battery last far longer than usual. There are 23 Dart models with Economy Slant Six or one of five V8 engines. Try the full-size Dodge Dart at your dependable Dodge Dealer.

**Dodge Dart!!**  
(A full-size Dodge priced model for model with Ford and Chevrolet)

On the right, Lancer, the new Dodge compact. It comes in six models: sedans, hardtop, wagons. With two engine choices: 101 and 145 h.p. Dodge Lancer is priced right down the line with Comet, Corvair and Falcon. It has a battery saving alternator-generator. A fully unitized, rust-proofed body. Want to know more? See your Dodge Dealer.

## Woodstock Man Fined \$10 Following Mishap

A Woodstock man charged with failure to keep right during a traffic mishap on Route 28 Monday afternoon, was fined \$10 by Justice of the Peace Rudolf C. Baumgartner of Woodstock. Sheldon Sife, 34, was driving a 1959 pickup truck on Route 28 near the Sunset Drive-in Theater when he lost control of the car, went across the left side of the road, skidded off the right shoulder and struck three light poles in the K & J Used Car Lot, Kingston state police reported.

Trooper David Wachtel issued a summons to the driver for failure to keep right. The mishap occurred at 1 p. m.

## Judge Critical Tobin's Contempt Trial May End Sometime Today

WASHINGTON (AP)—The contempt of Congress trial against Austin J. Tobin, executive director of the Port of New York Authority, was scheduled to end today with the presiding judge hinting that it should not have yet reached the courtroom.

U. S. Dist. Judge Luther Youngdahl said Monday that Tobin should not have been brought to trial until the House Judiciary Committee had made every effort to reconcile its differences with New York Gov. Rockefeller and New Jersey Gov. Meyner. Tobin was cited for contempt for refusing to turn subpoenaed documents over to a subcommittee investigating the Port Authority. He said the Authority was a bistate agency created by New York and New Jersey and the two states' governors had forbidden him to turn the documents over to the panel.

Asst. U. S. Atty. William Hitz told Judge Youngdahl that committee Chairman Emanuel Celler, D-N.Y., had tried several times to arrange meetings with the governors, but had been rebuffed.

Both sides in the trial rested their cases Monday and proceeded with their final arguments.

## Supreme Court Is Asked to Clarify Wiretap Muddle

WASHINGTON (AP)—The Supreme Court has been asked to clear up the legal muddle surrounding police wiretapping in New York State even if it has to reverse itself.

Under New York State's constitution and statutes, police wiretapping is legal if authorized by a judge of proper jurisdiction. In argument before the Supreme Court Monday, the Bronx County District Attorney's office defended the New York system. But, it said confusion over the apparent conflict of federal law with state law hampers prosecutions.

The office warned of a serious law enforcement breakdown if police are denied use of the wiretap weapon.

Counsel for a Bronx lawyer accused of maiming a woman through a lye attack said police wiretapping in the state imperils privacy on a broad scale.

## Mortgage Burning Planned Jan. 28 By VFW Post 5034

More than 200 invitations to a burning of the mortgage party have been sent out to members of the Veterans of Foreign Wars, Post 5034, and its auxiliary. The party will be held Jan. 28, at the VFW Hall, Livingston Street, it was announced at the auxiliary meeting Wednesday evening. John Woods is chairman of the event.

The auxiliary members were also reminded of the mass meeting of VFW Auxiliary members of New York State to be held at the Hotel New Yorker, March 11. The national president will make her annual visit at that time. The local unit has made its contribution to the president's purse.

It was also noted at this meeting that the Loyalty Day committee has set May 1, as the date for the parade, which will take place in the village on that evening. There will be a meeting of all committee chairmen and all other interested members of the Post and the auxiliary Jan. 26, at the hall starting at 8 p. m.

Donald Myers and Mrs. Thomas D. Dangler are co-chairmen of the Loyalty Day program.

Mrs. Ruth Prendergast, chairman of the hospital committee, reported that 215 hours of service, and supplies totalling \$3,472, were donated to the Castle Point Hospital during the past few months. It was also suggested to the membership that Mrs. Jean Wagner, a worker at the hospital and now a patient at Vassar Hospital, should be remembered with cards.

In other business during the evening it was announced that next month the auxiliary will receive its annual inspection of records and books.

The refreshment committee for next month's meeting, Feb. 8, will be the Mmes. Connie Barbetta, Frances Bosco and Mary Lou Dangler.

## W. Camp Church Approves Budget

Five Councilmen were re-elected and a \$12,401.50 budget for 1961 was approved at the annual congregational meeting of St. Paul's Evangelical Lutheran Church, West Camp Sunday night in the parish hall.

Re-elected to the council were Nelson Burhans, Mrs. Catherine Finch, Franklin P. Clum and Daniel Wynne of West Camp, and Albert J. Cawein of Blue Mountain.

Following the session members of the council re-elected council officers as follows:

The Rev. Alvin F. Messersmith, pastor, president; Burhans, vice president; Cawein, secretary; J. Charles Stewart of Cementon, treasurer, and Herbert Physter of Cementon, benevolence treasurer.

The 1961 budget of \$12,401.50, not including the debt for the church remodeling program completed last year, was approved.

The pastor's report revealed that the church now has 167 Communicating members. Emmanuel Drescher, heading the nominating committee presented the slate of councilmen. All were re-elected to three-year terms.

Among the aims for 1961, the pastor included a program of evangelism to reach inactive members and a finance campaign to aid in payment of a loan for the remodeling program.

Reports of committees were read and the pastor showed color or slides of the progress in the remodeling program of the church.

## Adult Education To Be P-T-A Topic

The Saugerties Parent-Teacher Association meeting 8 p. m. Wednesday at the Main Street School will be concerned with What Adult Education Offers Our Community.

Dr. Grant D. Morse, director of adult education, and Kenneth L. Lane, assistant director of adult education, will discuss different phases of the topic.

Colored slides of adult education classroom activities will be shown, and some projects produced in the classes will be displayed. Several adult education instructors will be available to answer questions concerning their courses.

## Our Resources Is Discussion Topic

The Monday Club met on Jan. 16 at the home of Mrs. Milton Armstrong, Treis Terrace, to hear Miss Jane Ziegler speak on Our Natural Resources.

Henry Thorau was said to have originated the idea of national parks and preserves; which became a reality largely through the efforts of Theodore and Franklin Roosevelt. John D. Rockefeller Jr. gave the nation half a million acres of the Great Smoky Mountains as well as other national parks including Grand Teton and Acadia.

As expressed by an official of the National Audubon Society, "it is fortunate that Yellowstone became a national park 88 years ago before obstacles could be set up by the bickerings and delays of various bureaus and departments, rival claims of the National Parks and the Forest Preserves and the lobbying and pressures of lumber, mining, grazing and power groups, as might be the case today."

"Hasty legislation," said Miss Ziegler, "is responsible for needless programs such as the Fire Ant Control Act but Congress balks at appropriating a relatively small amount to preserve Rainbow Bridge, the largest natural arch known to man."

The most important legislation passed by the last Congress was the Multiple Use Act sponsored by the National Forest Service. This writes into law a practice of the service to open sections of the Forest Preserve to logging, grazing, fishing and expanding recreational facilities.

Trained foresters feel it a wasteful use of public land to let trees grow to maturity and then die, particularly since research has revealed an amazing number of products derived from the forests. On the other hand, conservationists claim that trees of standard size are felled for timber, preventing the maturity of the forest giants so admired whose eventual decay provides the forest floor with media necessary for certain forms of wildlife.

The nation's forest products industries are making more and more of their timberland available to the public for recreational use, provided with all the necessary picnic facilities — receiving in return little compensation either in admission fees or tax exemptions. This could be an effective public relations measure.

Miss Ziegler also dealt with proposed measures for conserving water supply locally and nationally, flood control and land reclamation.

The club will meet next week with Mrs. Walter Cowan, Market Street.

## Not Very Gala Republicans Have a Ball

By FRANCES LEWINE  
WASHINGTON (AP)—Republicans held a transition ball Monday night and not much happened.

There was dancing and drinking, a few laughs and a new fight song nobody got very excited about. But the worst blow was that the top brass — especially President Eisenhower and Vice President Richard M. Nixon — didn't show up at all. Not even the Republican national chairman, Thruston B. Morton.

About 900 Attend  
The 900 or so energetic Republicans who did come had a fine time dancing till midnight to a jazzy, 13-piece orchestra. But it wasn't what you'd call a gala.

As Chairman Lyman Brownfield of Columbus, Ohio, put it: It was the first time a transition ball was held and "People wouldn't take it seriously." Especially, it seemed, in the midst of a Democratic inaugural week.

The audience, including many young dance-minded Republicans, applauded a transition ball song that predicted "We'll be back in sixty-four."

Paper "crying towels" were distributed and a sign reading "House Rules" advised that no crying aloud was permitted. It urged: "Republicans, save your buttons."

## Different Drinks

Several congressmen were on hand and two from Ohio—William Hayes and Frank Bow—participated in a skit depicting news "that made this ball necessary."

Two bars were labeled "Going Out of Business Bar" and "New Frontiers Here." They offered drinks including "grape debate-sour grapes and old crow," plus apple Jackie, pink Lady Bird, Hyannis port and old Fitzgerald on the rocks.

## Feb. 7 Trial Set For Broker's Son In Movie Holdup

WASHINGTON (AP)—Paul C. McGee, 22, of Larchmont, N. Y., will stand trial Feb. 7 on four charges stemming from the robbery of a theater here last November.

McGee, indicted in Federal Court, pleaded innocent Monday before Chief Judge David A. Pine, who released him in \$15,000 bond.

McGee, son of a Wall Street broker, is accused of a \$230 hold-up, illegally carrying a pistol, assault with intent to kill and assault with a dangerous weapon on Police Pvt. Alfred L. Black.

Police said a gun duel ensued between McGee and Black in a chase from the theater. McGee appeared in court with a bullet still in his abdomen. Black suffered a flesh wound in the forearm.

## Missed Bag of Money

DETROIT (AP)—Two armed robbers snatched a bag from grocer Walker Thornton as he was closing his store. They didn't bother about an envelope in Thornton's other hand. The envelope held several hundred dollars in receipts. The stolen bag contained peanut brittle, pork chops and some medicine.

## Six Are Missing As Blaze Sweeps Navy Base Pier

CHARLESTON, S.C. (AP)—A spectacular fire, intensified by a strong breeze and two explosions, swept a pier at the naval base here Monday. The Navy reported six men missing and four injured.

The missing men reportedly were working near a building on the pier that was demolished. The two explosions leveled the building.

The fire occurred at a facility known as a degaussing station, where ships are demagnetized. This process is necessary to prevent them from setting off magnetic mines.

The Navy said it would investigate the cause of the blaze. No estimate of the damage was available.

Three of the missing men were Navy men, and three were civilians.

Two officers, 19 enlisted men and five civilians were assigned to work at the station.

## Seven Are Fined \$2,050 on Lack of Gambling Stamp

ALBANY, N.Y. (AP)—Seven men were fined a total of \$2,050 in U.S. District Court Monday after they changed their pleas from innocent to guilty to charges of failing to buy \$50 federal gambling-tax stamps and to register as bet-takers.

Two others were fined on income-tax charges. The 7 were among 49 persons indicted on gambling charges Aug. 1.

Those fined were: Allan Krause, \$250, and Rocco Arcomano, \$100, both of Gloversville; Louis Danzig, Schenectady, \$350; Manley Blakeslee, Johnstown, \$350; Jack Johnson, Amsterdam, \$600; Walter O'Connor, \$200, and Joseph Derrico, \$200.

George Vardine, former owner of an industrial laundry in Schenectady, was sentenced to six months in prison and fined \$4,000 for evading \$5,501 in federal income taxes in 1953 and \$15,605 in 1954.

Judge James T. Foley continued Vardine free in bail, pending an appeal.

Foley fined W. Pulver Bird, a dairy farmer at Stanfordville, \$2,000 for failing to file returns on \$99,307 in 1955 and 1956.

Earlier, Joseph G. Gardino, 37, of Schenectady, was sentenced to six months in prison for conspiracy in a stolen-car ring. Gardino and six others were indicted in Virginia. Gardino pleaded guilty to 1 of 16 counts. Foley dismissed the other counts.
